Marketing Management Support Systems Berend Wierenga, Gerrit van Bruggen, 2012-12-06 Marketing management support systems are designed to make marketing managers more effective decision makers in this electronic era Developments in information technology have caused a marketing data explosion but have also provided a powerful set of tools that can transform this data into applicable marketing knowledge Consequently companies are making major investments in such marketing decision aids This book is the first comprehensive systematic textbook on marketing management support systems The basic issue is the question of how to determine the most effective type of support for a given marketing decision maker in a particular decision situation The book takes a demand oriented approach Decision aids for marketing managers can only be effective if they match with the thinking and reasoning process of the decision makers who use them Consequently the important questions addressed in this book are how do marketing managers make decisions how can marketing management support systems help to overcome several cognitive limitations of human decision makers and what is the most appropriate type of management support system for assisting the problem solving methods employed by a marketing decision maker

Social Media Marketing and Customer-Based Brand Equity for Higher Educational Institutions Charitha Harshani Perera, Rajkishore Nayak, Long Van Thang Nguyen, 2022-09-30 This book examines the extent to which social media marketing influences the customer based brand equity of higher education institutes Higher education institutions operate in a strong competitive environment due to the homogenous nature of their services and always look for new marketing

strategies to be competitive in the marketplace Therefore building customer based brand equity has become crucial for higher education institutions to differentiate themselves from others to attract prospective students Social media based marketing facilitated prospective students to communicate and collaborate to gather information relevant to higher education institutions and their respective brand equity However many models on customer based brand equity received limited support in the higher education sector particularly in emerging Asian countries As such drawing from social information processing theory this book empirically investigates how higher education institutions can develop customer based brand equity by using social media marketing and subjective norms mediated by brand credibility taking cross country comparisons between Sri Lanka and Vietnam The book goes on to examine the applications and implications of the findings for higher education institutions in developing branding strategies through social media **EBOOK: Services Marketing:**
