Petersen, 1996 This collection of essays chronicles the diversity and richness of one broad category of traditional material culture fiber industries or textiles among prehistoric and historic Native Americans in eastern North America Such industries which include basketry fabrics cordage and netting played an important role in the economic social and ceremonial life of indigenous cultures However because of the extreme age of the artifacts their fragile nature and unfavorable preservation conditions knowledge of these industries has long been incomplete resulting in a gap in scholarship that this volume does much to address Journal of the Anthropological Society of Oxford Anthropological Society of Oxford, 2002

Beyond the Visible and the Material Laura M. Rival, Neil L. Whitehead, 2001 The contributors to this volume explore the legacy of Peter Rivi re recently retired Professor of Social Anthropology University of Oxford in the development of the anthropology of Amazonia This international group of leading specialists contributes to the substantial and growing body of Amazonian ethnography discussing topics which include kinship and genealogy the village as a unit of ethnographic observation and analysis the human body in political and social processes and gender relationships as aspects of political cosmological thinking In addition the ethnology of the Guianas receives particular emphasis as do the themes of shamanism history and colonialism as they have affected this region In showing how alive the field of Amazonian anthropology has become whilst pointing to conceptual aspects in need of further elaboration the contributors demonstrate

Costume and History in Highland Ecuador Ann Pollard Rowe,Lynn A. Meisch,2012-10-03 The traditional costumes worn by people in the Andes women s woolen skirts men s ponchos woven belts and white felt hats instantly identify them as

natives of the region and serve as revealing markers of ethnicity social class gender age and so on Because costume expresses so much scholars study it to learn how the indigenous people of the Andes have identified themselves over time as well as how others have identified and influenced them Costume and History in Highland Ecuador assembles for the first time for any Andean country the evidence for indigenous costume from the entire chronological range of prehistory and history The contributors glean a remarkable amount of information from pre Hispanic ceramics and textile tools archaeological textiles from the Inca empire in Peru written accounts from the colonial period nineteenth century European style pictorial representations and twentieth century textiles in museum collections Their findings reveal that several garments introduced by the Incas including men s tunics and women s wrapped dresses shawls and belts had a remarkable longevity They also demonstrate that the hybrid poncho from Chile and the rebozo from Mexico diffused in South America during the colonial period and that the development of the rebozo in particular was more interesting and complex than has previously been suggested The adoption of Spanish garments such as the pollera skirt and man s shirt were also less straightforward and of more recent vintage than might be expected
