Celtic Ireland West of the River Shannon Patrick A Lavin, 2003 The reader accompanies the early Irish Celts on their cultural journey down the ages and into the province of Connacht where the story focuses on the early tribal communities exploring the developing dynastic families descendants of once heroic warrior societies The earliest noted Celtic inhabitants of Connacht collectively called Firbolg were believed to have ruled much of the province until well into the third century when they were toppled and driven into tributary status by the expansion and dominance of the Gaels from northern Spain In Connacht some thirty petty kingdoms came to figure prominently in Irish history and legend Among them the Three Tuaths Kinel Dofa O Hanly country Corca Eachlinn MacBrennan country and Tir Briuin na Sionna O Beirne country are presented as microcosms of what Gaelic tribal life throughout The Middle Ages was like This book centers on the rise to power of the Connacht dynasts their constant warring among themselves their decline brought about by endless conflict with their kinsmen and invading Normans their final collapse following confiscation of their lands by the English in the seventeenth century and the resurgence of Celtic culture and the triumphant return of the Irish Gaels as masters of their own destiny

Winning Their Place Heidi J. Osselaer, 2011-09 In January 1999 five women were elected to the highest offices in Arizona including governor secretary of state attorney general treasurer and superintendent of public instruction The Fab Five as they were dubbed by the media were sworn in by U S Supreme Court Justice Sandra Day O Connor herself a former member of the Arizona legislature Some observers assumed that the success of women in Arizona politics was a result of the modern women s movement but *Winning Their Place* convincingly demonstrates that these recent political victories have a long and fascinating history This landmark book chronicles for the first time the participation of Arizona women in the state s early politics Incorporating impressive original research *Winning Their Place* traces the roots of the political participation of women from the territorial period to after World War II Although women in Arizona first entered politics for traditional reasons to reform society and protect women and children they quickly realized that male politicians were uninterested in their demands Most suffrage activists were working professional women who understood that the work place discriminated against them In Arizona they won the vote because they demanded rights as working women and aligned with labor unions and third parties that sympathized with their cause After winning the vote the victorious suffragists ran for office because they believed men could not and would not represent their interests Through this process these Arizona women became excellent politicians Unlike women in many other states women in Arizona quickly carved out a place for themselves in local and state politics even without the support of the reigning Democratic Party and challenged men for county office the state legislature state office Congress and even for

governor This fascinating book reveals how they shattered traditional notions about a woman's place and paved the way for future female politicians including the Fab Five and countless others who have changed the course of Arizona history
