*The Canadian Alternative* Klaus Martens, 2004      *Ark of Ice* Lesley Choyce, 1992      *Canadian Book Review Annual*, 1992      **The Canadian Encyclopedia** James H. Marsh, 1999 This edition of The Canadian Encyclopedia is the largest most comprehensive book ever published in Canada for the general reader It is COMPLETE every aspect of Canada from its rock formations to its rock bands is represented here It is UNABRIDGED all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume It has been EXPANDED since 1988 teams of researchers have been diligently fleshing out old entries and recording new ones as a result the text from 1988 has grown by 50% to over 4 000 000 words It has been UPDATED the researchers and contributors worked hard to make the information as current as possible Other words apply to this extraordinary work of scholarship AUTHORITATIVE RELIABLE and READABLE Every entry is compiled by an expert Equally important every entry is written for a Canadian reader from the Canadian point of view The finished work many years in the making and the equivalent of forty average sized books is an extraordinary storehouse of information about our country This book deserves pride of place on the bookshelf in every Canadian Home It is no accident that the cover of this book is based on the Canadian flag For the proud truth is that this volume represents a great national achievement From its formal inception in 1979 this encyclopedia has always represented a vote of faith in Canada in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated At the start of a new century and a new millennium in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the 23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry A mari usque ad mare from sea to sea which is Canada's motto and a good description of this volume's range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the

time that one mind could encompass all that was known Yet now Canada's finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada *Better to Have Loved* Judith Merril, Emily Pohl-Weary, 2002 Judith Merril was a pioneer of twentieth century science fiction a prolific author and editor She was also a passionate social and political activist In fact her life was a constant adventure within the alternative and experimental worlds of science fiction left politics and Canadian literature *Better to Have Loved* is illustrated with original art works covers from classic science fiction magazines period illustrations and striking photography **Canadian Fantasy and Science-fiction Writers** Douglas Ivison, 2002 Essays on the writers and works of Canadian fantasy and science fiction that have made this genre an important component of Canadian literature one that must be considered by Canadian literary scholars Documents the rapid development of Canadian fantasy and science fiction from the early 1980s to the beginning of the twenty first century **Out of this World** National Library of Canada, 1995 **The Year's Best Science Fiction: Tenth Annual Collection** Gardner Dozois, 1993-06-15 With stories about consciousness and conscience about heroes and horrors this volume offers up two dozen dazzling stories from some of science fiction's greatest writers including Neal Barret Jr Terry Bisson Pat Cadigan Arthur C Clarke L Sprague de Camp Bradley Denton Greg Egan Joe Haldeman Lukas Jaeger Kathe Koja Nancy Kress Jonathan Lethem Ian R McLeod Tom Maddox Maureen F McHugh Ian McDonald Frederik Pohl Robert Reed Robert Silverberg Michael Swanwick Steven Utley Ian Watson Kate Wilhelm Connie Willis Rounded out by a list of Honourable Mentions and Gardner Dozois's annual summation of the year in science fiction this anthology is the single best guide available to the best possible tomorrows and alternate yesterdays of the past year Quill & Quire, 1998 **The Cumulative Book Index**, 1994 A world list of books in the English language *The Noah Myth in Twenty-first-century Cli-fi Novels* Helen E. Mundler, 2022 Breaks new ground by both analyzing the literary qualities of four recent rewritings of the Noah myth and contextualizing their concern with climate change within the wider crises of the Anthropocene With the rise of concern about global warming in recent years climate change fiction or cli fi has become increasingly important both as a publishing phenomenon and as an area of academic study and research Flood narratives have become a subsection of cli fi in their own right This book proposes new readings of four recent rewritings of the Noah myth *Odds Against Tomorrow* by Nathaniel Rich Margaret Atwood's *Maddaddam* trilogy *When the Floods Came* by Clare Morrall and *The Flood* by Maggie Gee Helen E Mundler's book takes into account the wealth of criticism that has appeared on these texts in recent years acknowledging important contributions from critics including Adam Trexler Adeline Johns Putra and Astrid Bracke However her book's strength is that it takes a new approach going beyond the topicality of the texts and treating them not just as ideological statements but giving them their due as literary artifacts While the importance of climate change is beyond debate this book takes a more balanced approach that places it within a wider context of the multiple crises of the
