of peace studies by addressing power and conflict cooperation integration and community democratic Kantian peace economic development dependency and inequality and the relationships between domestic and foreign politics Russett's academic achievements and standing are the result of his bringing these areas together as a coherent entity based on his eclectic ability to cross boundaries with regard to academic disciplines sub disciplines methods of data gathering and analysis and broad theoretical perspectives as well as basic and applied research

Arms Control Today, 1984 *The Nuclear Arms Race* William Gay, Michael Pearson, 1987 Provides an overview of the major issues and literature on the nuclear arms race Includes an accompanying bibliography for each chapter

The Changing Face of Conflict and the Efficacy of International Humanitarian Law Helen Durham, Timothy L.H. McCormack, 2022-10-31 It is indisputable that the way armed conflict is conducted has changed dramatically in the last half of the twentieth century The contributions to this volume accept the reality of these changes and seek to assess the efficacy of certain aspects of international humanitarian law The volume commences with a critical evaluation of the 1977 Protocols additional to the four Geneva Conventions of 1949 Subsequent chapters consider increasing protection for women and minorities in armed conflict efforts to control the weapons of war identifying the law applicable to peace operations and current developments in the enforcement of international humanitarian law One general theme which emerges from a number of chapters is the importance of the relationship between international humanitarian law and other relevant areas of international law Most of the contributors also applaud recent developments towards effective enforcement of the established principles of this important area of international law

Handbook of Science and Technology Studies Sheila Jasanoff, Gerald E Markle, James C Peterson, Trevor Pinch, 2001-11-01 This volume represents the social constructivist turn of the field It is evident that social constructivism made a major impact on the field during the 1970s and 1980s The diverse papers included here highlight the role of ethnography in STS In addition we are exposed to new perspectives of the multicultural and gendered nature of knowledge production Science Technology and Society For the most current comprehensive resource in this rapidly evolving field look no further than the Revised Edition of the Handbook of Science and Technology Studies This masterful volume is the first resource in more than 15 years to define summarize and synthesize this complex multidisciplinary international field Tightly edited with contributions by an internationally recognized team of leading scholars this volume addresses the crucial contemporary issues both traditional and nonconventional social studies political studies and humanistic studies in this changing field Containing theoretical essays extensive literature reviews and detailed case studies this remarkable volume clearly sets the standard for the field It does nothing less than establish itself as the benchmark one that will carry the field well into the next century The long awaited Handbook of Science and Technology Studies sponsored by the Society for Social Studies of Science is a truly substantial work both in size and in the breadth of its many contributions It is a rich and valuable guide to much that is transpiring in the field of Science and Technology Studies In the editors words it is an unconventional

but arresting atlas of the field at a particular moment in its history Science Technology Society This book is not only an important resource for practitioners but it also may help to spark the curiosity of those who are outside the field including scientists and engineers themselves and so pull the half seen world of science and technology studies even more fully into the light of day American Scientist The book as a whole is an impressive testimony to the vitality of a burgeoning field New Scientist It reflects the international and interdisciplinary nature of the society An excellent resource Choice *Future Survey Annual 1986* Michael Marien,1987-01-01 Peace and World Order Studies Barbara J. Wien,1978-01-01 **Physics and the Nuclear Arms Race** Dietrich Schroeer,John Dowling,1984 *Agreements for Arms Control* Jozef Goldblat,Stockholm International Peace Research Institute,2020-11-19 Originally published in 1982 this is the most comprehensive handbook on arms control ever published It contains an analysis of the bilateral and multilateral agreements reached since World War II An assessment is made of the extent to which each agreement has affected the arms race reduced the likelihood of war or otherwise contributed to the overall goal of disarmament Ongoing arms control negotiations are also analyzed The complex problem of verification of compliance with arms control obligations is critically examined and the shortcomings of the existing arrangements are pointed out The critique is searching objective and free of the usual biases of official government reports The analysis of the arms control agreements is preceded by an historical overview beginning with the Hague Peace Conferences held at the turn of this century through the League of Nations attempts to bring about a universal reduction of armaments to the activities of the United Nations in the field of arms regulation and general disarmament The present arms control negotiating machinery is described The texts of the relevant documents are reproduced for handy reference and the status of the implementation of the most important multilateral arms control agreements is presented in tabular form Tables and figures facilitate the reading *Nuclear Deterrence In U.s.-soviet Relations* Keith B. Payne,2019-03-04 This book critically examines U S attempts to establish a nuclear deterrent against the Soviet Union and offers new approaches to dealing with the changing strategic environment Dr Payne maintains that the most influential theories of nuclear deterrence Assured Vulnerability and Flexible Targeting are unrealistic given Soviet foreign policy and attitudes toward nuclear war and no longer adequately meet the requirements of U S national security Identifying an approach compatible with U S security commitments he argues that future U S policy should focus on defeating the Soviet theory of victory on threatening Soviet military forces and domestic and external political control assets while also defending the U S against nuclear attack The discussion covers recent developments among them the new nuclear strategy of the Carter administration and President Reagan s new weapons program **The International Politics of Communication** Alan Chong,2025-03-18 In an era of globalization international communication constantly takes place across borders defying sovereign control as it influences opinion While diplomacy between states is the visible face of international relations this informal diplomacy is usually less visible but no less powerful Information politics can be found in

propaganda Internet politics educational exchanges tourism and even popular film The International Politics of Communication examines this informational dimension of international politics investigating how information is generated conveyed through channels and directed specifically at audiences While citizens are often portrayed as faithfully loyal supporters and beneficiaries of the modern nation state a fiction supported by passports identification papers and other notarized credentials they are subject to the pulls of loyalty from transnational tribal affiliations mythological and historical narratives of ethnicity as well as the transcendental claims of religion and philosophy Increasingly social media also enchants non state individuals providing new virtual communities as the center of loyalties rather than national affiliations By reinterpreting taken for granted concepts in journalism media political economy nationalism development and propaganda as information politics this book prepares serious minded scholars citizens politicians and social activists everywhere to understand the power plays in international communication and use alternatives to begin transforming power relations

The Permanent alliance Geoffrey Lee Williams, 1975-05-20 *Historical Dictionary of Arms Control and Disarmament* Jeffrey A. Larsen, James M. Smith, 2005-03-25 *Historical Dictionary of Arms Control and Disarmament* also provides information that is comprehensible to all readers Jeffrey A Larsen and James M Smith present a context for the broader range of international relations at a given point in time extending the utility of the dictionary beyond just a narrow examination of arms control BOOK JACKET
