Mattila Hans Bekker-Nielsen, Arne Magnusson ,1959 *Medieval Scholarship: Literature and philology* Helen Damico, Joseph B. Zavadil, Donald Fennema, Karmen Lenz, 1995 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company **Medieval Scholarship: Biographical Studies on the Formation of a Discipline** Helen Damico, 2014-02-04 First published in 1998 Medieval Scholarship Biographical Studies on the Formation of a Discipline Volume 2 Literature and Philology is the second volume of three that present Biographies of scholars whose work influenced the study of the Middle Ages and transformed it into the discipline known as Medieval Studies Volume 2 provides thirty two accounts of men and women from the sixteenth century to the twentieth who developed medieval philology and literature into a profession Their subject deals with the languages and literatures of greater Europe from about the seventh century through the fifteenth and includes Celtic Scandinavian Germanic and Romance nations *Handbook of Medieval Studies* Albrecht Classen, 2010-11-29 This interdisciplinary handbook provides extensive information about research in medieval studies and its most important results over the last decades The handbook is a reference work which enables the readers to quickly and purposely gain insight into the important research discussions and to inform themselves about the current status of research in the field The handbook consists of four parts The first large section offers articles on all of the main disciplines and discussions of the field The second section presents articles on the key concepts of modern medieval studies and the debates therein The third section is a lexicon of the most important text genres of the Middle Ages The fourth section provides an international bio bibliographical lexicon of the most prominent medievalists in all disciplines A comprehensive bibliography rounds off the compendium The result is a reference work which exhaustively documents the current status of research in medieval studies and brings the disciplines and experts of the field together **Reading Notes** ,2021-11-01 Reading notes constitute a vast resource for an understanding of literary history and culture They indicate what writers read as well as how they read and what they used in their own work As such they play an important role in both the reception and the production of texts The essays in this volume representing the newest trends in European and international textual scholarship examine literary creation and the relationship between reading and writing To study how readers respond to writing and how reading engenders new writing the contributing scholars no longer take for granted that authors write in splendid isolation but turn to a more broadly sociological investigation of authorship assigning new roles to the writer as reader notetaker annotator book collector and so on Notes and annotations may be fragmentary private undigested and embryonic but as witnesses to the reading process they tell unique stories about writers and readers ranging from great

marginalists like Coleridge to women annotators of cookbooks This subject of research is a junction of several fields of research and tries to bridge gaps between separate disciplines with a common ground such as the history of the book the history of reading and the history of writing scholarly editing and textual genetics the analysis commentary and critical interpretation of the way in which works of art come into being bridging the gap between literary and textual criticism

Cultural Property Law and Restitution Irini A. Stamatoudi, 2011-01-01 This invaluable book for the first time brings together the international and European Union legal framework on cultural property law and the restitution of cultural property Drawing on the author's extensive experience of international disputes it provides a very comprehensive and useful commentary Theories of cultural nationalism and cultural internationalism and their founding principles are explored Irini Stamatoudi also draws on soft law sources ethics morality public feeling and the role of international organisations to create a complete picture of the principles and trends emerging today *The American Book Collector*, 1970 *Making History with Manuscripts in Medieval and Early Modern Europe* Johannes Junge Ruhland, 2025-06-02 This volume interrogates the role of the manuscript medium in conveying history to medieval and early modern readers The contributors adopt a capacious understanding of history to explore history writing in its materiality from a variety of methodological and disciplinary perspectives The core contentions of this book are that the material features of manuscripts helped shaping historical narratives and defining history conceptually and that therefore the makers of these manuscripts played an instrumental role in history writing alongside authors Ranging from the ninth to the sixteenth centuries and comprising materials from across Western Europe in Latin and the vernaculars the ten chapters of this volume uncover stakes and strategies tied to highly specific contexts such as late thirteenth century Corbie or fifteenth century Zurich yet partaking in a shared practice of history writing with manuscripts Manuscript makers made history through layout rewriting illumination compilation choice of script and annotation and conferred history writing its material dimension This volume therefore situates the writing of history in its material dimension and invites us to consider medieval and early modern historiography in its medium *Language and Power in the Early Middle Ages* Patrick J. Geary, 2013 Language and ideology in the scholarship of the late Middle Ages *In Search of the Culprit* Lukas Rösli, Stefanie Gropper, 2021-12-06 Despite various poststructuralist rejections of the idea of a singular author genius the question of a textual archetype that can be assigned to a named author is still a common scholarly phantasm The Romantic idea that an author created a text or even a work autonomously is transferred even to pre modern literature today This ignores the fact that the transmission of medieval and early modern literature creates variances that could not be justified by means of singular authorships The present volume offers new theoretical approaches from English German and Scandinavian studies to provide a historically more adequate approach to the question of authorship in premodern literary cultures Authorship is no longer equated with an extra textual entity but is instead considered a narratological inner and intertextual function that can be recognized in the retrospectively

established beginnings of literature as well as in the medial transformation of texts during the early days of printing The volume is aimed at interested scholars of all philologies especially those dealing with the Middle Ages or Early Modern Period Sources of the History of North Africa, Asia and Oceania in Denmark Danish National Archives,C.
