Around Africa And Asia By Sea:

Around Africa and Asia by Sea Irene M. Franck, David M. Brownstone, 1999-06-01 The Spice Route was the first true link between East and West. At the height of its use it linked the great civilizations of the Mediterranean, India and Southeast Asia. The Spice Route is believed to have originated some 5 000 years ago and parts of the route are traveled today. To follow its development is to observe the power struggle of countless empires for its control and to learn how Western and Eastern cultures adapted to each other through economic partnership. The Cape of Good Hope Route around Africa played an equally critical role in East-West trade. 50 maps and illustrations. Around Africa and Asia by Sea Irene M. Franck, David M.

The September 2001 terrorist attacks shocked the world. But what did they change? In this book Asia specialists from academe and policy think tanks assess the impact of 9/11 on the Asia Pacific. Drawing on unique fieldwork access to a wide range of documents and inside expertise the authors consider how old geo-strategic and cultural fault lines have been overlaid with new security threats from state and non-state actors. With chapters on specific countries and regions, defense policies, terrorism and current and potential conflict zones this collection critically examines the Asia Pacific region's post-9/11 as well as post-Iraq war security architecture. **Decoding the Chessboard of Asian Geopolitics** Debasish
