Arrow War 1st American Ed:

America (Vol. 1-6) Joel Cook, 2020-07-14 The object of this work is to give the busy reader in acceptable form such a comprehensive knowledge as he would like to have of the geography history picturesque attractions peculiarities productions and most salient features of our great country The intention has been to make the book not only a work of reference but a work of art and of interest as well and it is burdened neither with too much statistics nor too intricate prolixity of description It covers the Continent of North America from the Atlantic to the Pacific and from the Gulf of Mexico to the Canadian Dominion and Alaska It has been prepared mainly from notes specially taken by the author during many years of extended travel all over the United States and Canada

The Politics of Sex, Race and Working-Class Slang in Late Second Empire French Caricature Russell Stephens, 2025-08-11 This study examines caricatures as they appeared within popular Parisian magazines in mid 19th century France at the time of the 1867 World s Fair Chapters compare the comic mockery of several of the most important satirists of this time including Am d e de No or Cham 1818 1879 as he was more popularly known and Honor Daumier 1808 1879 A major theme within the analysis is how these caricaturists secretly used argot street slang as documented in two slang dictionaries by Parisian litterateur Alfred Delvau 1825 1867 within their comic images to carry hidden encrypted messages in order to evade the censorship of the day The book focuses primarily on caricatures of Chinese visitors who were part of the 1866 diplomatic visit to Paris and images of Chinese at the 1867 Exposition Universelle showing how the satires which were published by Cham used argot to create highly sexualised images that were often racist in nature In contrast the volume proposes that Daumier used slang in his caricatures to challenge racism and to make secret reference to current political leaders and politics The book will be of interest to scholars working in art history visual culture media studies and communication studies

The Annual American Catalog, 1900-1909, 1902 Shooting Arrows and Slinging Mud James E. Mueller, 2013-11-07 The defeat of George Armstrong Custer and the Seventh Cavalry at the Battle of the Little Bighorn was big news in 1876 Newspaper coverage of the battle initiated hot debates about whether the U S government should change its policy toward American Indians and who was to blame for the army s loss the latter an argument that ignites passion to this day In Shooting Arrows and Slinging Mud James E Mueller draws on exhaustive research of period newspapers to explore press coverage of the famous battle As he analyzes a wide range of accounts some grim some circumspect some even laced with humor Mueller offers a unique take on the dramatic events that so shook the American public Among the many myths surrounding the Little Bighorn is that journalists of that time were incompetent hacks who in response to the stunning news of Custer s defeat called for bloodthirsty revenge against the Indians and portrayed the boy general as a glamorous hero who had suffered a martyr s death Mueller argues otherwise explaining that the journalists of 1876 were not uniformly biased against the Indians and they did a credible job of describing the battle They reported facts as they knew them wrote thoughtful editorials and asked important questions Although not without their

biases journalists reporting on the Battle of the Little Bighorn cannot be credited or faulted for creating the legend of Custer's Last Stand. Indeed, as Mueller reveals, after the initial burst of attention, these journalists quickly moved on to other stories of their day. It would be art and popular culture, biographies, paintings, Wild West shows, novels, and movies that would forever embed the Last Stand in the American psyche. *A Centennial Edition of the History of the United States* Benson John Lossing, 1876 *Tocqueville on America After 1840* Alexis de Tocqueville, 2009-03-30 Tocqueville on America after 1840 provides access to Tocqueville's views on American politics from 1840 to 1859, revealing his shift in thinking and growing disenchantment with America. **Gunboat on the Yangtze** Glenn F. Howell, 2015-10-03 Captain Glenn F. Howell kept a detailed account of his activities in China for 62 years. His journals now make up 202 leather-bound volumes, one of the largest sources in existence, perhaps the largest of servicemen's observations of service in China during that country's struggle to oust one power and come to grips with a new one between World War I and II. This work presents Howell's diary from June 6, 1920, to September 23, 1921, during which time he commanded the naval gunboat USS Palos on the Yangtze River. First comes a biography of Howell, an overview of Chinese history from 1800 to 1920, and a history of the United States military involvement in China during those years. Howell's time as commander of the USS Palos is divided into three sections. Preceding each, the editor comments on the nature of the upcoming diary entries. Howell covers a range of topics, including the Chinese people, various important locales (e.g., the Three Gorges), making official visits, his first as a captain, officer, enlisted man, relations, opium, the steam navy, people who influenced him, S. Cornell Plant, and Captain Joseph Miclo, skipper of the Meitan missionaries and other foreigners in China, including U.S. military retirees and trackers, China's human beasts of burden. **France and England in North America (Vol. 1-7)** Francis Parkman, 2023-12-21 Francis Parkman's seminal work *France and England in North America*, encompassing seven volumes, offers an intricate examination of the colonial struggle between France and England in North America during the 17th and 18th centuries. Parkman's narrative is characterized by its vivid prose and exhaustive research, blending historical analysis with dramatic storytelling. Drawing from a wealth of primary sources, he meticulously details the geopolitical rivalries, cultural tensions, and the impactful encounters between European settlers and Indigenous peoples, providing a nuanced understanding of the period's complexities. Set against the backdrop of burgeoning empires, Parkman's work serves as a critical exploration of territorial ambitions and the resulting conflicts that shaped the continent's history. Francis Parkman was a pioneer in the field of American history, influenced by his upbringing in a prominent Boston family, which fostered his interest in history and the natural world. His travels through the American wilderness and exposure to firsthand accounts from various colonial figures shaped his perspective, instilling a deep appreciation for the interplay of environment and human endeavor. Parkman's scholarly approach bridges the gap between history and literature, making his narratives engaging yet informative. For anyone interested in understanding the foundational conflicts that forged modern North America, *France and England in North*
