**Art and Architecture in France, 1500-1700** Anthony Blunt, Richard Beresford, 1999-01-01 The sixteenth and seventeenth centuries in France were an epoch of spectacular artistic activity exemplified by the chateaux of the Loire valley the palace of Versailles the paintings of Poussin and Claude and the sculpture of Coysevox which echo the political and cultural importance of France and the Sun King Anthony Blunt presents major artists and their principal works chronologically provides an overview of the main projects of the period and of the artistic personalities behind them and clearly sets the historical context This new edition of one of the classics of the Pelican History of Art series has been revised and updated with color illustrations and a new bibliography

**The Spiritual Rococo** Gauvin Alexander Bailey, 2017-07-05 A groundbreaking approach to Rococo religious d r and spirituality in Europe and South America The Spiritual Rococo addresses three basic conundrums that impede our understanding of eighteenth century aesthetics and culture Why did the Rococo ostensibly the least spiritual style in the pre Modern canon transform into one of the world s most important modes for adorning sacred spaces And why is Rococo still treated as a decadent nemesis of the Enlightenment when the two had fundamental characteristics in common This book seeks to answer these questions by treating Rococo as a global phenomenon for the first time and by exploring its moral and spiritual dimensions through the lens of populist French religious literature of the day a body of work the author calls the Spiritual Rococo and which has never been applied directly to the arts The book traces Rococo s development from France through Central Europe Portugal Brazil and South America by following a chain of interlocking case studies whether artistic literary or ideological and it also considers the parallel diffusion of the literature of the Spiritual Rococo in these same regions placing particular emphasis on unpublished primary sources such as inventories One of the ultimate goals of this study is to move beyond the cliché of Rococo s frivolity and acknowledge its essential modernity Thoroughly interdisciplinary The Spiritual Rococo not only integrates different art historical fields in novel ways but also interacts with church and social history literary and post colonial studies and anthropology opening up new horizons in these fields

**Guarino Guarini and His Architecture** Harold Alan Meek,1988-01-01 Ge illustreerde studie over het werk van de Italiaanse architect 1624 1683 Louis XIV's Architect Richard Ballard,2023-12-30 A must read for those seeking to understand the intersection of politics and art in a pivotal moment of European history This is a study of royal absolutism in a most extreme form in modern European history and of the nature of Louis XIV s concept of personal glory and of the embodiment of France as a new superpower It is a study of political ideas expressed in architecture to establish Versailles as the centre of French world power and royal prestige It is also a personal story full of social cultural and economic history of the period as seen in the life and work of Louis Le Vau from a humble family of craftsmen who was a self taught architect in the early history of the profession skilled in technical craft skills and even grand design He was a major contributor to the architectural glories of Paris including the Louvre Vincennes Versailles and the College of the Four Nations And all achieved despite interference from the great magnates of the age like Mazarin and Colbert and constant mind changing by the King who wanted every feature in the buildings to reflect his concept of personal royal prestige Le Vau was Louis XIV s First Architect from 1654 until his death and disgrace in 1670 The social cultural economic and political backdrop is striking with court intrigue scandal corruption luxury indulgence and the rise of a rich bourgeoisie but the main thrust of the story concerns Louis XIV and the royal personal ambition and the work of a stone cutter s son who became the Sun King s instrument The study is good on the more technical features of architectural history reminiscent of Pevsner s marvellous Buildings of England series **Encyclopedia of World Art** Bernard S. Myers,1959 Subject matter consists of representational arts in the broadest sense architecture sculpture painting and other man made objects with no limits as to time place or cultural environment **Encyclopedia of World Art: Eskimo to Gallo-Roman** ,1961 **Sebastiano Serlio on Architecture: Books VI-VII of 'Tutte l'opere d'architettura et prospetiva' with 'Castrametation of the Romans' and 'The Extraordinary book of doors'** Sebastiano Serlio,1996-01-01 Sebastiano Serlio was the most important architectural writer and theorist of the sixteenth century The author of the first wide ranging illustrated book on architecture he produced a complete set of model designs as well as practical solutions for everyday design problems This volume the second in a two volume series of Serlio s entire works presents the previously unpublished sixth book the seventh book and as well as The Extraordinary Book of Doors his little known Castrametation of the Romans each of which demonstrates Serlio s sophisticated design theories This is the first translation of Serlio s later works and the first time that the long lost sixth volume has been united with its companion works and restored to its intended position The book also includes an introduction and notes by translators Vaughan Hart and Peter Hicks that demonstrate Serlio s significance within the history

of architecture and the importance of these neglected texts to our understanding of Serlio's work      **Sculpture and Enlightenment** Erika Naginski, 2009 This volume explores the ways in which the aesthetics of public art were affected by the social political and cultural changes of the Enlightenment      **Art Without Borders** Ben-Ami Scharfstein, 2009-08-01 People all over the world make art and take pleasure in it and they have done so for millennia But acknowledging that art is a universal part of human experience leads us to some big questions Why does it exist Why do we enjoy it And how do the world's different art traditions relate to art and to each other Art Without Borders is an extraordinary exploration of those questions a profound and personal meditation on the human hunger for art and a dazzling synthesis of the whole range of inquiry into its significance Esteemed thinker Ben Ami Scharfstein's encyclopedic erudition is here brought to bear on the full breadth of the world of art He draws on neuroscience and psychology to understand the way we both perceive and conceive of art including its resistance to verbal exposition Through examples of work by Indian Chinese European African and Australian artists Art Without Borders probes the distinction between accepting a tradition and defying it through innovation which leads to a consideration of the notion of artistic genius Continuing in this comparative vein Scharfstein examines the mutual influence of European and non European artists Then through a comprehensive evaluation of the world's major art cultures he shows how all of these individual traditions are gradually but haltingly conjoining into a single current of universal art Finally he concludes by looking at the ways empathy and intuition can allow members of one culture to appreciate the art of another Lucid learned and incomparably rich in thought and detail Art Without Borders is a monumental accomplishment on par with the artistic achievements Scharfstein writes about so lovingly in its pages      **Art Books 1980-1984** R.R. Bowker Company, 1985      The Brothers Le Nain Esther Susan Bell, Claude Douglas Dickerson, Nicolas Milavanovic, Alain Tallon, 2016-01-01 A beautiful volume that brings to light the forgotten Le Nain brothers a trio of 17th century French master painters who specialized in portraiture religious subjects and scenes of everyday peasant life In France in the 17th century the brothers Antoine c 1598 1648 Louis c 1600 1605 1648 and Mathieu 1607 1677 Le Nain painted images of everyday life for which they became posthumously famous They are celebrated for their depictions of middle class leisure activities and particularly for their representations of peasant families who gaze out at the viewer The uncompromising naturalism of these compositions along with their oddly suspended action imparts a sense of dignity to their subjects Featuring more than sixty paintings highlighting the artists full range of production including altarpieces private devotional paintings portraits and the poignant images of peasants for which the brothers are best known this generously illustrated volume presents new research concerning the authorship dating and meaning of the works by well known scholars in the field Also groundbreaking are the results of a technical study of the paintings which constitutes a major contribution to the scholarship on the Le Nain brothers      Venetian Painted Ceilings of the Renaissance Juergen Schulz, 2023-11-15  
*European Paintings of the 16th, 17th, and 18th Centuries* Cleveland Museum of Art, Ann Tzeuschler Lurie, 1982
