production in the pre Cold War era that set the stage for transnational solidarity organizing early artistic responses to the rise of Cold War polarization and state repression the centrality of cultural and artistic production in social movements of solidarity and solidarity activism beyond movements Essay topics range widely across regions and social groups from the work of lesbian activists in Mexico City in the late 1970s and 1980s to the exchanges and transmissions of folk music practices from Cuba to the United States to the uses of Chilean arpilleras to oppose and protest the military dictatorship While previous studies have focused on politically engaged artists or examined how artist communities have created solidarity movements this book is one of the first to merge both perspectives
