Comprehension in Typical Readers and Dyslexic Readers: Volume II Manuel Soriano-Ferrer,Simone Aparecida

Capellini,Giseli Donadon Germano,2024-03-06 This Research Topic is the second edition of Fluency and reading comprehension in typical readers and dyslexics readers Volume I This Second Edition Research Topic is focused on the characterization of the reading writing difficulties and their comorbidities and in the analysis of evidence based recommendations for early interventions and treatment of these difficulties within the fields of neuropsychology speech language pathology and educational psychology Reading involves decoding and comprehension components and to become efficient it requires a large number of cognitive and linguistic processes Among those decoding failures can have different origins such as deficits in phonological and or visual processing In addition a child with reading difficulties might also have problems in the acquisition of writing and handwriting performance This is an important point to be discussed as reading and

writing both suffer interference from vocabulary acquisition linguistic skills memory skills reading and writing practices and literacy methods These processes become important only when the professional needs to deal with students presenting learning difficulties Difficulty in using the knowledge of conversion rules between grapheme phoneme to word reading construction or phoneme grapheme for writing can be identified in schoolchildren with dyslexia dysgraphia and dysortography being a specific learning disorder with a neurological etiology In addition there is established evidence of a speech language processing basis students with specific learning disabilities can show a range of cognitive difficulties e g rapid naming executive functioning working memory These presented difficulties interfere in their learning process impairing their learning development

Reading Poverty in America Patrick Shannon, 2014-03-14 In this book Shannon's major premise remains the same as his 1998 *Reading Poverty* Poverty has everything to do with American public schooling how it is theorized how it is organized and how it runs Competing ideological representations of poverty underlie school assumptions about intelligence character textbook content lesson formats national standards standardized achievement tests and business school partnerships and frame our considerations of each In this new edition Shannon provides an update of the ideological struggles to name and respond to poverty through the design content and pedagogy of reading education showing how through their representations and framing advocates of liberal conservative and neoliberal interpretations attempt the ideological practice of teaching the public who they are what they should know and what they should value about equality civic society and reading For those who decline these offers Shannon presents radical democratic interpretations of the relationship between poverty and reading education that position the poor the public students and teachers as agents in redistribution of economic cultural and political capital in the United States
