America the Beautiful Or America the Caput Raymond W. Converse, 2015-10-01. Are the economy, the political environment, and the social structure of America headed for a crisis or a rebound? The evidence is massive but can be clearly used to support either conclusion. Predictions of gloom and doom flood the media with soaring unemployment and underemployment, depopulated cities, and demographic decline. At the same time, we are bombarded with declarations of robust economic growth, political cooperation, and social rebirth. Which is it? Voters need to know or they cannot make a reasoned choice. Dr. Converse presents an easy-to-follow analysis of the facts that support both positions, enabling and encouraging readers to evaluate the evidence themselves. Whichever view one finds more valid, there is a general sense that America is at a turning point. It is up to the voters to elect those who share their interest to make sure elected officials have that interest in mind and to punish them if they fail to act upon that interest. A method is set forth indicating how this could be accomplished. This book is for Americans who are suffering from underemployment, unemployment, or general burnout from political gridlock, and it contains important clues for readers who are concerned by the claim that the traditional values of the United States are in serious decline. If you've read Mark Steyn's *After America* or Charles Krauthammer's *Things That Matter*, you'll find building blocks for your arguments in the eye-opening data presented in these pages.
