**Emergent Methods** Sharlene Nagy Hesse-Biber,Patricia Leavy,2013-10-15 Social researchers increasingly find themselves looking beyond conventional methods to address complex research questions This is the first book to comprehensively examine emergent qualitative and quantitative theories and methods across the social and behavioral sciences Providing scholars and students with a way to retool their research choices the volume presents cutting edge approaches to data collection analysis and representation Leading researchers describe alternative uses of traditional quantitative and qualitative tools innovative hybrid or mixed methods and new techniques facilitated by technological advances Consistently formatted chapters explore the strengths and limitations of each method for studying different types of research questions and offer practical in depth examples      **Developing Grounded Theory** Janice M. Morse,Barbara J. Bowers,Kathy Charmaz,Adele E. Clarke,Juliet Corbin,Caroline Jane Porr,Phyllis Noerager Stern,2021-02-15 Developing Grounded Theory The Second Generation Revisited is a highly accessible description of the rapid development of grounded theories and the latest developments in grounded theory methods A succinct overview of the development of grounded theory is provided including the similarities and differences between Glaserian and Straussian grounded theory The method introduced by Schatzman and the development of Charmaz s constructivist grounded theory and Clarke s situational analysis are clearly presented The book is divided into seven sections each type of grounded theory is discussed by the developer or their student followed by a chapter describing a project that used that particular type of grounded theory Bookending these chapters is the first chapter which describes the development and landscape of grounded theory and a final chapter describing the challenges to the future of grounded theory This book is ideally suited for beginning students trying to come to grips with the field as well as more advanced researchers attempting to delineate the major types of grounded theory      *Doing Qualitative Data Analysis with NVivo* Dimitri Mortelmans,2024-11-26 This open access textbook provides an introduction to the software program NVivo the most widely used qualitative analysis program It is a versatile program with an extensive range of accessible analysis tools flexibly deployable in the diversity of qualitative analysis approaches Qualitative analysis is almost standard practice today with the help of a software program Yet there are many misunderstandings about qualitative software They support the qualitative researcher but never take over their manual and theoretical work An in depth understanding of the possibilities of a qualitative software program helps to free up time for the analysis itself The possibilities of NVivo in this book are approached from a researcher s perspective That is precisely why gaining efficiency in using the software tools gets a prominent place in the chapters The author examines basic skills such as managing data working with memos and coding qualitative data This includes textual data such as transcripts from interviews and focus

groups and audiovisual material sound video and images The book also discusses more advanced analysis tools such as case coding queries AI tools matrices and models maps This textbook is intended for all users of NVivo both early career researchers and more advanced analysts who want to further discover the secrets of this software package along the way
