The Basketball Abstract Dave Heeren,1988 A new method of evaluating performance is applied to the NBA teams with some surprising results **Basketball on Paper** Dean Oliver,2020-02-15 Journey inside the numbers for an exceptional set of statistical tools and rules that can help explain the winning or losing ways of a basketball team Basketball on Paper doesn't diagram plays or explain how players get in shape but instead demonstrates how to interpret player and team performance Dean Oliver highlights general strategies for teams when they're winning or losing and what aspects should be the focus in either situation He describes and quantifies the jobs of team leaders and role players then discusses the interactions between players and how to achieve the best fit Oliver conceptualizes the meaning of teamwork and how to quantify the value of different types of players working together He examines historically successful NBA teams and identifies what made them so successful individual talent a system of putting players together or good coaching Oliver then uses these statistical tools and case studies to evaluate the best players in history such as Magic Johnson Wilt Chamberlain Bill Russell and Charles Barkley and how they contributed to their teams success He does the same for some of the NBA's oddball players Manute Bol Muggsy Bogues and Dennis Rodman and for the WNBA's top players Basketball on Paper is unique in its incorporation of business and analytical concepts within the context of basketball to measure the value of players in a cooperative setting Whether you're looking for strategies or new ideas to throw out while watching the ballgame at a sports bar Dean Oliver's Basketball on Paper will give you amazing new insights into teamwork coaching and success **Optimizing Player**

teach us about sustained excellence and success Is women s basketball better basketball How ethically should one deal with a strategic cheater in pickup basketball With NBA and NCAA team rosters constantly changing what does it mean to play for the same team What can coaching legends Dean Smith Rick Pitino Pat Summitt and Mike Krzyzewski teach us about character achievement and competition What makes basketball such a beautiful game to watch and play Basketball is now the most popular team sport in the United States each year more than 50 million Americans attend college and pro basketball games When Dr James Naismith the inventor of basketball first nailed two peach baskets at the opposite ends of a Springfield Massachusetts gym in 1891 he had little idea of how thoroughly the game would shape American and international culture Hoops superstars such as Michael Jordan LeBron James and Yao Ming are now instantly recognized celebrities all across the planet So what can a group of philosophers add to the understanding of basketball It is a relatively simple game but as Kant and Dennis Rodman liked to say appearances can be deceiving Coach Phil Jackson actively uses philosophy to improve player performance and to motivate and inspire his team and his fellow coaches both on and off the court Jackson has integrated philosophy into his coaching and his personal life so thoroughly that it is often difficult to distinguish his role as a basketball coach from his role as a philosophical guide and mentor to his players In Basketball and Philosophy a Dream Team of twenty six basketball fans most of whom also happen to be philosophers proves that basketball is the thinking person s sport They look at what happens when the Tao meets the hardwood as they explore the teamwork patience selflessness and balanced and harmonious action that make up the art of playing basketball
