Re-Visioning Terrorism Elena Coda,Ben Lawton,2016-01-15 *Re-Visioning Terrorism: A Humanistic Perspective* is an interdisciplinary collection of essays that aims to offer a plurality of visions on terrorism expanding its meaning across time and space and raising new questions that explore its multifaceted occurrences The different ideological philosophical and cultural perspectives emerging from the essays and the variety of humanistic disciplines involved intend to provide a complex and even contradictory picture that emphasizes the fact that there cannot be a univocal conception and response to terrorism in either the practical or the intellectual domain The editors borrow the concept of rack focus response from cinema to create an innovative and flexible interpretative approach to terrorism Rack focus refers to the change of focus of a lens so that one image can come into focus while another moves out of focus Though the focal distance changes the reality has not changed Both items and events coexist but given the nature of optics we can only see clearly one or the other This occurs not just with lenses but also with human perceptions be they emotional or intellectual The rack focus response requires that we try to shift focus from the depth of field that is absolutely clear and familiar to the other that is unclear and unfamiliar This exercise will lead us to reflect on terroristic events in a more nuanced nondogmatic and flexible manner The essays featured in this volume range from philosophical interpretations of terrorism to historical analysis of terror through the ages to cinematic artistic and narrative representations of terroristic events that are not limited to 9 11 *A Companion to Catalan Culture* Dominic Keown,2011 This volume attempts to equip the English speaking reader with a fuller understanding of the uniqueness and quality of the culture of Catalonia by providing a comprehensive portfolio of the creative contribution of the nation across a broad spectrum of achievement **Spanish Cinema** Rob Stone,2014-10-13 From the surrealist films of Luis

But due to the colourful melodramas of Pedro Almodóvar Spain has produced a wealth of exciting and distinctive film makers who have consistently provided a condoning or dissenting eye on Spanish history and culture. For modern cinema goers it has often been the sexually charged and colourful nature of many contemporary Spanish films which has made them popular world wide and led directors and stars such as Almodóvar, Banderas and Penélope Cruz to be welcomed by Hollywood. Using original interview material with Spanish Cinema luminaries such as Carlos Saura, Julio Medem, Imanol Uribe and Elías Querejeta, Rob Stone charts a history of Spanish Cinema throughout the turbulent Francoist years and beyond. The book aims to provide a broad introduction to Spanish Cinema, the nine chapters divided into four types: chapters on Spanish Cinema during the Dictatorship and following the transition to democracy; survey current debate and opinion while tracing the development of themes and film movements throughout those periods; chapters on early Spanish cinema and Basque cinema present vital and fascinating aspects of Spanish cinema that have previously been ignored; chapters on childhood in Spanish cinema and sex and the new star system offer new pathways into the study of Spanish cinema; chapters on Carlos Saura, Elías Querejeta and Julio Medem offer specific case studies of film makers who are emblematic of different periods in Spanish cinema and indeed Spanish history. As with other titles in the Inside Film series, the book is comprehensively illustrated with representative stills and has a thorough bibliography, index and list of resources.

The cinema of Álex de la Iglesia Andy Willis, Nuria Triana-Toribio, Peter Buse, 2013-07-19. *lex de la Iglesia* initially championed by Pedro Almodóvar and at one time the enfant terrible of Spanish film, still makes film critics nervous. The director of some of the most important films of the Post-Franco era: *Acción mutante*, *El día de la bestia*, *Muertos de risa* receives here the first full length study of his work. Breaking away from the pious tradition of acclaiming art house auteurs, *The cinema of lex de la Iglesia* tackles a new sort of beast: the popular auteur who brings the provocation of the avant garde to popular genres such as horror and comedy. This book brings together Anglo-American film theory, an exploration of the legal and economic history of Spanish audio-visual culture, a comprehensive knowledge of Spanish cultural forms and traditions: *esperpento*, *sainete*, *costumbrista*, with a detailed textual analysis of all of *lex de la Iglesia*'s seven feature films.

European Cinema Thomas Elsaesser, 2025-10-01. In the face of renewed competition from Hollywood since the early 1980s and the challenges posed to Europe's national cinemas by the fall of the Wall in 1989, independent filmmaking in Europe has begun to re-invent itself. *European Cinema: Face to Face with Hollywood* re-assesses the different debates and presents a broader framework for understanding the forces at work since the 1960s. These include the interface of world cinema and the rise of Asian cinemas; the importance of the international film festival circuit; the role of television as well as the changing aesthetics of auteur cinema. New audiences have different allegiances and new technologies enable networks to reshape identities, but European cinema still has an important function in setting critical and creative agendas even as its economic and institutional bases are in transition.

Daniel Calparsoro Ann Davies, 2013-07-19. Daniel Calparsoro, a director who has provided a crucial contribution to the contemporary scene in

Spanish and Basque cinema has provoked strong reactions from the critics Reductively dismissed as a purveyor of crude violence by those critics lamenting a lost golden age of Spanish filmmaking Calparsoro's films reveal in fact a more complex interaction with trends and traditions in both Spanish and Hollywood cinema This book is the first full length study of the director's work from his early social realist films set in the Basque Country to his later forays into the genres of the war and horror film It offers an in depth film by film analysis while simultaneously exploring the function of the director in the contemporary Spanish context the tension between directors and critics and the question of national cinema in an area the Basque Country of heightened national and regional sensitivities

Spanish National Cinema Nuria

Triana-Toribio, 2012-11-12 This study examines the discourses of nationalism as they intersected or clashed with Spanish film production from its inception to the present While the book addresses the discourses around filmmakers such as Almodóvar and Medem whose work has achieved international recognition Spanish National Cinema is particularly novel in its treatment of a whole range of popular cinema rarely touched on in studies of Spanish cinema Using accounts of films popular film magazines and documents not readily available to an English speaking audience as well as case studies focusing on the key issues of each epoch this volume illuminates the complex and changing relationship between cinema and Spanish national identity
