Dreaming Southern A Novel:

Trauma, Memory, and Narrative in the Contemporary South African Novel, 2012-01-01 The contributions to this volume probe the complex relationship of trauma memory and narrative By looking at the South African situation through the lens of trauma they make clear how the psychic deformations and injuries left behind by racism and colonialism cannot be mended by material reparation or by simply reversing economic and political power structures Western trauma theories as developed by scholars such as Caruth van der Kolk Herman and others are insufficient for analysing the more complex situation in a postcolony such as South Africa This is because Western trauma concepts focus on the individual traumatized by a single identifiable event that causes PTSD Post Traumatic Stress Disorder What we need is an understanding of trauma that sees it not only as a result of an identifiable event but also as the consequence of an historical condition in the case of South Africa that of colonialism and more specifically of apartheid For most black and coloured South Africans the structural violence of apartheid's laws were the existential condition under which they had to exist The living conditions in the townships pass laws relocation and racial segregation affected great parts of the South African population and were responsible for the collective traumatization of several generations This trauma however is not an unclaimed and unclaimable experience Postcolonial thinkers who have been reflecting on the experience of violence and trauma in a colonial context writing from within a Fanonian tradition have on the contrary believed in the importance of reclaiming the past and of transcending mechanisms of victimization and resentment so typical of traumatized consciousnesses Narration and the novel have a decisive role to play here

Mad Wives and Island Dreams Philip Gabriel, 1998-10-01 Hailed by the noted critic Karatani Kojin as a more important and lasting writer than Mishima Shimao Toshio 1917 1986 remains almost unknown in the West Several of his short stories have appeared in English translation yet it is only now with the publication of Philip Gabriel s comprehensive and searching study that Shimao s work is being introduced to the worldwide audience it deserves Mad Wives and Island Dreams not only is a thorough assessment of the literary legacy of a highly original and influential writer but also represents a significant contribution to the consideration of much broader issues relating to the emergence and nature of the postwar Japanese sense of identity Shimao s fiction covers a wide range of topics the war and its aftermath the unconscious the nuclear family madness the position of women the culture of Japan s southern islands Shimao s experiences as a survivor of a kamikaze unit underscore much of his literature and resulted in a series of compelling short stories unique in modern fiction Many of these early critically acclaimed works including the classic Everyday Life in a Dream are based on the narrative logic of the unconscious Mad Wives and Island Dreams contextualizes these dream stories as a literary expression of wartime trauma and argues that Shimao s powerful narration of guilt and victimization challenges standard readings of Japanese war literature Shimao s most popular works are the byosaimono literally stories of a sick wife which chronicle the real life crisis of his wife s madness in the mid 1950s Among these is the writer s best known work the 1977 novel Shi no toge The sting of death widely recognized as one of the masterpieces of Japanese literature The novel further explores Shimao s literature of the victimizer and wartime experience while revealing a

feminist perspective that explores links between the suppressed aspirations of women and madness Perhaps most importantly just as the novel examines the relationship between the wife Miho and her southern island roots Shi no toge parallels Shimao's growing concern over the culture of marginalized regions and notions of cultural diversity a concern that would eventually result in the Yaponesia essays In *Mad Wives and Island Dreams* Gabriel succeeds in linking all of the seemingly disparate strands within Shimao's oeuvre the war stories the byosaimono the dream stories the Yaponesia writings categories all too often discussed in isolation He shows convincingly that together they represent a consistent and concerted attempt to depict the existence of the Other the significant periphery of a less than homogenous whole This volume will prove fascinating and important reading for those interested in questions of cultural identity and marginalization as well as Japanese literature and culture

American Literary Realism and the Failed Promise of Contract Brook Thomas, 2023-04-28 In *American Literary Realism and the Failed Promise of Contract* the author explores the interplay between contract law and literary realism in late nineteenth century America a time when both contract law and realism shaped cultural legal and social landscapes The text argues that while contract law in theory emphasized the freedom to negotiate obligations among individuals it fell short in practice by failing to dismantle deeply entrenched inequalities associated with race class and gender The era's literature mirrored this dynamic as authors highlighted the gap between the idealized promises of contractual freedom and the enduring constraints of status Through this lens literary realism not only reflected society's inequities but also critiqued the legal and social systems that perpetuated them Realism which sought to represent everyday life in a grounded unembellished way intersected with the contract's promise by portraying social relations as complex and negotiated yet constrained by systemic hierarchies Works like Twain's *Adventures of Huckleberry Finn* and James's *The American* evoke moments where relationships of status could theoretically transform into equitable contractual interactions However these fictional moments of promise often falter reflecting contract's inability to establish a truly egalitarian social order The rise of corporate capitalism further complicated contract's promise as corporations fostered a form of economic structure that subordinated individual agency reinforcing rather than alleviating social inequities The text also considers how these issues resonate today especially as contractual ideals influence contemporary notions of social justice While the promise of contract continues to appeal to a vision of equal opportunity the persistent influence of race class and gender hierarchies complicates its realization The author suggests that revisiting works of realism offers valuable insights into these ongoing tensions challenging readers to reimagine a society where individuals might genuinely be free and equal not just in theory but in practice In doing so this book presents realism not as an endorsement of the status quo but as a field of critical inquiry urging us to address the unresolved questions about equity that persist in American society This title is part of UC Press's *Voices Revived* program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices*

Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997 *New Approaches to the Twenty-First-Century Anglophone Novel* Sibylle Baumbach, Birgit Neumann, 2019-12-20 This book discusses the complex ways in which the novel offers a vibrant arena for critically engaging with our contemporary world and scrutinises the genre's political ethical and aesthetic value Far reaching cultural political and technological changes during the past two decades have created new contexts for the novel which have yet to be accounted for in literary studies Addressing the need for fresh transdisciplinary approaches that explore these developments the book focuses on the multifaceted responses of the novel to key global challenges including migration and cosmopolitanism posthumanism and ecosickness human and animal rights affect and biopolitics human cognition and anxieties of inattention and the transculturality of terror By doing so it testifies to the ongoing cultural relevance of the genre Lastly it examines a range of 21st century Anglophone novels to encourage new critical discourses in literary studies
