the stock market nothing is certain There isn't doubt that life can be volatile such that you are never sure of what happens next However if you decide against setting targets and goals you intend to achieve within some periods you are living your life based on speculations It's not true that whatever will be will be You can decide what you want in life and accomplish it There are many great examples of people who have achieved tangible success because they leveraged the power of visualization You can become one of such people when you leverage the tips in this book The journey begins with what visualization is and ends with how you can succeed with it Enjoy the ride **Dreaming in Church** Geoffrey G.
