too have their seasons *Talking with Angels*, 2006-04 The true story of four young Hungarians in search of inner meaning at a time of outer upheaval the holocaust who encountered luminous forces that helped them find new direction and hope in their shattered lives These forces which came to be known as angels accompanied them for seventeen perilous months until three of them met their deaths in Nazi concentration camps Only Gitta Mallasz survived to bring their story and these remarkable dialogues to the world Gitta Mallasz always rejected any notion of authorship for this book saying I am merely the scribe of the angels *The Black Madonna* Fred Gustafson, It is not easy to quickly or simply answer the question of what the Black Madonna actually represents One answer leads to more questions which in turn demand more explanations A possible reason for this turmoil lies in the difficulty our culture has always had in consciously integrating the feminine side of life and especially its dark side Another reason is the nature of the dark feminine itself which defies attempts to give eternally fixed limits to what she represents Still she reflects herself in our personal and collective lives and gives intimations of her most essential meaning through images myths dreams and fantasies If we are willing to receive and be open to such phenomena we stand a chance of not only knowing in part what she might represent but more so experiencing the healing force she embodies in our time This darker aspect of the feminine has throughout history been both feared and sought after both hated and admired The Black Madonna of Einsiedeln stands among the many Black Virgins that seem to imaginistically express this dark side of the feminine in a creative transformational manner for both the individual and the collective Beginning with a history of the Einsiedeln Madonna Dr Gustafson broadens his analysis into a psychological and historical examination of the Black Madonna from her roots in the pagan deity Lilith and the archetype of the Great Mother to her resurgence as the Virgin in the Middle Ages to her life today as the unheeded unconscious archetype of the feminine

Picturing God Ann Ulanov, 2020 Ann Belford Ulanov submits that we have all painted our own pictures of God Most of them were formed in early childhood and now lie buried in our unconscious selves Even though we may be unaware of our images of God they play an active sometimes harmful role in our spiritual development Picturing God demonstrates the importance of confronting our unconscious selves and allowing our images of God both positive and negative to surface Such inner exploration reveals not only relevant insights about ourselves but also pulls us beyond our private pictures of God toward a truer view of the living God Picturing God shows us how to explore our unconscious selves and how this spiritual exercise can change the whole of our lives how we respond to God how we relate to others and how we view ourselves

The Bearskin Quiver Gregory McNamee,2002 Once upon a time an Apache story tells us the trickster called Coyote killed a bear so that he could make a suitable quiver for his magical arrows You shouldn't have done that someone warned Coyote That skin will only bring you bad luck And so it has been for Coyote ever since chased by bears and humans alike In this charming collection of folktales from long ago we read of the creation of the world of the ways of animals of the beguiling Coyote of the world in which we live and other worlds that hide just beyond our sight Drawn from the oral literatures of some twenty Southwestern American Indian peoples these stories teach us about the constants of those dry places about how the clouds form in the sky how the heat rises from the ground how the animals move about from one shady spot to another and how the people once lived their lives All these stories show us as the great anthropologist Claude Lévi Strauss observed that folktales are not mere afterthoughts of literature just pleasant stories to tell around the campfire but rather valuable tools for reflection upon our own lives

The Enchantment of Gardens Ruth Ammann,2008 Ancient wisdom tells us that gardens have a healing nourishing effect on the human soul and body The garden belongs to the great archetype of life and is one of the few big archetypal images that are experienced primarily as positive This positive experience is significant because the garden is a part of the natural and cultural human environment and thus is particularly influential in the interaction between human beings and their environment

Varieties of Mythic Experience Dennis Patrick Slattery,Glen Slater,2008 This book presents contributions from different authors covering the mythical basis for different religions It also shows how psychology and philosophy have been influenced by myths

The Healing Imagination Ann Belford Ulanov,Barry Ulanov,2008 This eloquent work speaks of the centrality of imagination in the life of the spirit Ann and Barry Ulanov describe the imagination as a bridge between the psyche and the spirit Using rich imagery drawn from literature film and their own experience as therapists they unlock for us the healing power of our imagination Imagination heals by building a bridge sturdy enough to link us up each of us to the river of being already present in us to the currents flowing through us and among us in our unconscious life After describing this healing power of imagination the authors go on to show how it is vital in the spiritual life in preaching prayer teaching counseling and politics
