Today's Woman in World Religions Arvind Sharma, 1994-01-01 This book examines how the women's movement is affecting traditional religions and civilizations throughout the world. It reviews cases of global impact in Hinduism, Buddhism, Taoism, Confucianism, Judaism, Christianity, Islam, and Australian aboriginal religion. This volume completes the trilogy devoted to women in world religions edited by Arvind Sharma. The second book in the series is entitled *Religion and Women*. The present work surveys the position of women in the religious traditions covered in the first volume of the trilogy *Women in World Religions*, placing these traditions in contemporary context. Secret Origins of Cultures on Earth: A Panoramic Odyssey Through Times, Places, and Souls W.K.S. PhD (c), Review of *Secret Origins of Cultures on Earth* *Secret Origins of Cultures on Earth* is a panoramic odyssey through deep time, weaving history, myth, genetics, archaeology, linguistics, and spirituality into an encyclopedic narrative of Earth's peoples. This book defies conventional timelines spanning hundreds of thousands of years and introduces forgotten or marginalized civilizations with poetic flair and visual reverence. The text is rich with sensory detail, flavored by incense, smoke, drumbeats, clay dust, and whispered ancestral rituals. Each region is more than a geographical space; it becomes a sentient character shaped by flora, fauna, ancestral memory, and celestial observation. Khoisan trance dances, the Rain Bull ritual, and the Rainforest's Nkisi are described with mystical depth. Meanwhile, ancient catastrophes, forced migrations, and colonization receive unflinching, detailed attention. What elevates the book beyond ethnography or history is its artistic tone, evocative language, and dreamlike structure, offering not only facts but feelings. The writing interlaces scientific information (mitochondrial DNA, early tool use, genetic markers) with sensual immersion and metaphysical musing, where desert storms, lunar alignments, and ceremonial baths coexist with trauma and truth. The inclusion of suppressed histories (child sacrifices, slavery, complicity, colonial distortions) adds urgency and honesty. Figures like the Lemba, Grimaldi, Tipu, and Efunroye Tinubu are resurrected with clarity and power. The book does not sanitize history; it amplifies it with brutal truths and sacred rituals. *Secret Origins of Cultures on Earth* is unlike any academic or spiritual book; it occupies its own genre: historical, spiritual, ethno-poetics. The author re-centers the global narrative on indigenous voices, matriarchal echoes, and cosmological wisdom. Every culture, from Khoisan to Han, Sumerian to Anatolian, is granted origin, myths, aesthetic beauty, and scientific grounding. Visually, the layout supports this feeling of ancient reverence. The images, symbols, and maps are intentionally curated to awaken the senses and the subconscious. Rather than simply display architecture or clothing, the illustrations feel like visual spells meant to restore lost memory. *Secret Origins of Cultures on Earth* is not for passive reading; it invites active reorientation. It compels questioning of Eurocentric timelines, Abrahamic doctrine, and capitalist materialism. It demands respect for the spirits of the land and the truths buried under empire and industry. In short, it is revolutionary in voice, beautiful in form, and urgent in purpose.

Managing Death: International Perspectives Gerry R. Cox,Neil

Thompson,2022-09-23 There is a huge collection of literature relating to death grief and bereavement but one aspect that has received relatively little attention is that of death management practices by which we mean the various ways of managing the circumstances of the death ritually acknowledging it and sensitively handling the disposal of the body and so on While ways of disposing of the dead and grief practices have been thought of as based upon individual responses grief and bereavement practices can be understood not only by looking at psychological and medical frameworks but also by examining people as part of a complex structure of social arrangements institutions structures and patterns By examining the social and institutional structures of various groups around the world we provide an international framework for a better understanding of the study of dying death and bereavement This book highlights the significance of these matters in an international context reflecting common themes and important differences It will highlight common themes across diverse cultures and national settings while also drawing attention to significant differences If professionals working in the field of death grief and bereavement are not aware of such differences their practice can be insensitive discriminatory and therefore ineffective if not actually counterproductive As such the book provides an invaluable resource for a wide variety of professionals and students including medicine and health care social work counselling and psychotherapy chaplaincy and pastoral work and of course those involved in the funeral industry In addition students of sociology psychology and anthropology will find much of interest here in terms of appreciating the diversity of ways in which funerals and other death management practices are
