Porcelain Analysis and Its Role in the Forensic Attribution of Ceramic Specimens Howell G. M.

Edwards,2021-11-09 The material for this book arose from the author s research into porcelains over many years as a collector in appreciation of their artistic beauty as an analytical chemist in the scientific interrogation of their body paste enamel pigments and glaze compositions and as a ceramic historian in the assessment of their manufactory foundations and their correlation with available documentation relating to their recipes and formulations A discussion of the role of analysis in the framework of a holistic assessment of artworks and specifically the composition of porcelain namely hard paste soft paste phosphatic bone china and magnesian is followed by its growth from its beginnings in China to its importation into Europe in the 16th Century A survey of European porcelain manufactories in the 17th and 18th Centuries is followed by a description of the raw materials minerals and recipes for porcelain manufacture and details of the chemistry of the high temperature firing processes involved therein The historical backgrounds to several important European factories are considered highlighting the imperfections in the written record that have been perpetuated through the ages The analytical chemical information derived from the interrogation of specimens from fragments shards or perfect finished items is reviewed and operational protocols established for the identification of a factory output from the data presented Several case studies are examined in detail across several porcelain manufactories to indicate the role adopted by modern analytical science with information provided at the quantitative elemental oxide and qualitative molecular spectroscopic levels where applicable The attribution of a specimen to a particular factory is either supported thereby or in some cases a potential reassessment of an earlier attribution is indicated Overall the information provided by analytical chemical data is seen to be extremely useful for porcelain identification and for its potential attribution in the context of a holistic forensic evaluation of hitherto unknown porcelain exemplars of questionable factory origins Science and Civilisation in China Joseph Needham,Rose Kerr,Nigel

Wood,2004 **François Boucher, 1703-1770** François Boucher,Detroit Institute of Arts,1986 A history of Francois Boucher 1703 1770 an originator of the Rococo style and one of the major French artists of the period A general introduction is followed by essays on Boucher s early career his impact on European art his tapestry designs and his designs for Sevres porcelain Armorial Porcelain Rachel L. Denyer,Morgan C.T. Denyer,Howell G. M. Edwards,2024-08-13 This book explores the genesis of armorial porcelain manufacture in Britain While heraldic devices began appearing on Chinese porcelain from the sixteenth century onwards armorials did not appear on British porcelain until the 1750s It examines the development of porcelain in China and traces its introduction to Western Europe The book delves into the market for armorial porcelains from the early commissioning of Chinese armorial porcelainware to the establishment of manufactories in England capable of producing armorial porcelain It also discusses the reasons behind the timing of armorial porcelain s manufacture in Britain Additionally it assesses armorial porcelain as a contemporary historical source Building upon previous research by the
