Drowning Pond:

The Drowning Pond Catherine Forde, 2006-01-01 You're the least popular girl at school and the glossy friends who were briefly interested are bored And you'll do anything to keep them Nicky finds picking on the new girl easy everyone thinks she's weird anyway But when does weird become witchy

Drowning by Accident Elizabeth Meinhard, 2022-02-15 Drowning By Accident explains why it is so easy to drown where accidents happen and how to save lives by early rescue and resuscitation More than 600 people die by drowning in Britain every year Swimming is promoted as a particularly safe form of exercise so that swimmers forget or ignore the dangers of frigid lakes swollen rivers incoming tides or outgoing rip currents Drowning accidents take place because we don't recognise water as a hostile environment We overestimate the strength and endurance of our bodies and underestimate the power and deceptiveness of water Year after year victims lose their lives in typical drowning accidents often sinking so quickly and silently that nearby family friends and onlookers fail to notice the tragedy taking place close beside them Babies drown in baths Toddlers drown in garden ponds School children fall off rafts Teenagers strike too far from the shore Pensioners wade into rivers to save their dogs Victims often die within minutes of sinking beneath the surface A quarter of those who reach hospital alive will also die while others survive with severe permanent brain damage This means that it is vitally important for parents grandparents teachers lifeguards and lawmakers to recognise the risks and prevent drowning accidents before they take place

This Death by Drowning William Kloefkorn, 2001-02-01 The first volume in William Kloefkorn's four-part memoir which when completed will cover the four elements water fire earth and air This Death by Drowning is a memoir with a difference an artfully assembled collection of reminiscences each having something to do with water The book's epigraph from Norman Maclean's *A River Runs Through It* proclaims I am haunted by waters So and in most rewarding ways is William Kloefkorn The first chapter recalls the time when at age six the author came within one gulp of drowning in a Kansas cow pasture pond only to be saved by his father A later chapter recounts Kloefkorn's younger brother's near death by drowning a few years later still another envisions the cycle of drought and torrential rains on his grandparents' Kansas farm There are fanciful memories of the Loup and other Nebraska rivers interlaced with Mark Twain's renderings of the Mississippi and John Neihardt's poetic descriptions of the Missouri And there are stories of more recent times a winter spent in a cabin on the Platte River and an often amusing Caribbean cruise that Kloefkorn took with his wife Throughout Kloefkorn takes his memories for a walk following each recollection into unexpected fruitful byways Along the way he pauses at larger themes of nature death family and renewal that gradually gather irresistible force and authority

Case Studies in Drowning Forensics Kevin Gannon, D. Lee Gilbertson, 2018-12-07 When a corpse is found in a body of water authorities generally presume that the manner of death was either an accident or a suicide They do not treat the recovery site as a potential crime scene or homicide so many cases remain unsolved Case Studies in Drowning Forensics investigates the cases of 13 bodies recovered from water in similar
