Tinker, M. Rapin, 2013-04-17 During the past decade there has been a considerable expansion in the understanding assessment and treatment of critically ill patients An attempt to portray our present knowledge of this diverse field in a comprehensive textbook is therefore a formidable and daunting undertaking However many colleagues in different disciplines and from different countries convinced us of the need for such a work and greatly encouraged by their interest we embarked upon the project Any single text even a very long one cannot cover every aspect of critical illness Our first task was therefore to define those areas of the subject that had to be included This we did on a systematic basis and although the final emphasis of the book is very largely directed to clinical matters we felt it pertinent to include in some detail accounts of relevant physiology and technology *Care of the Critically Ill Patient* is divided into twelve sections each concerned with major facets of critical illness each of the sixty eight chapters includes a topical and often extensive bibliography The many chosen contributors form an international group of specialists whose combined expertise embraces the topics that we have selected

**The Physician's Guide to Diving Medicine** C.B. Carlston, R.A. Mathias, C.W. Shilling, 2012-12-06 This book is designed to be a physician's guide for those interested in diving and hyperbaric environments It is not a detailed document for the erudite researcher rather it is a source of information for the scuba diving physician who is searching for answers put to him by his fellow nonmedical divers Following the publication of *The Underwater Handbook A Guide to Physiology and Performance for the Engineer* there were frequent requests for a companion volume for the physician This book is designed to fill the void Production of the book has been supported by the Office of Naval Research and by the Bureau of Medicine and Surgery Research and Development Command under Navy Contract No N000014 78 C 0604 Our heartfelt thanks go to the many authors without whose contributions the book could not have been produced These articles are signed by the responsible authors and the names are also listed alphabetically in these preliminary pages Every chapter was officially reviewed by at least one expert in the field covered and these reviewers are also listed on these pages Our thanks go to them for their valuable assistance We are grateful to Marthe Beckett Kent for editing Chapter III Our thanks also go to Mrs

Carolyn Paddon for typing and retyping the manuscripts and to Mrs Catherine Coppola who so expertly handled the many fiscal affairs
