NIDA Research Monograph ,1976      **Rural Families and Communities in the United States** Jennifer E. Glick,Susan M. McHale,Valarie King,2020-03-06 This book examines the implications of rural residence for adolescents and families in the United States addressing both the developmental and mental health difficulties they face Special attention is given to the unique circumstances of minority families residing in rural areas and how these families navigate challenges as well as their sources of resilience Chapters describe approaches for enhancing the well being of rural minority youth and their families In addition chapters discuss the challenges of conducting research within rural populations and propose new frameworks for studying these diverse communities Finally the volume offers recommendations for reducing the barriers to health and positive development in rural settings Featured topics include Changes in work and family structures in the rural United States Rural job loss to offshoring and automation The opioid crisis in the rural United States Prosocial behaviors in rural U S Latino a youth Demographic changes across nonmetropolitan areas Rural Families and Communities in the United States is a must have resource for researchers professors clinicians professionals and graduate students in developmental psychology family studies public health as well as numerous interrelated disciplines including sociology demography social work prevention science educational policy political science and economics      **The Role of Community-Mindedness in the Self-Regulation of Drug Cultures** Anke Stallwitz,2012-04-26 This book analyzes heroin users and the drug subculture on the Shetland Islands an area known for its geographical remoteness rural character and relative wealth It fills the scientific gap created by the conventional research in heroin research which is usually conducted in urban areas and relies on treatment and prison populations Based on qualitative in depth interviews with twenty four heroin users this book depicts and analyzes the nature and historical development of the local heroin scene It illustrates the features and internal structures of the subculture and it examines the manner in which both are influenced by the location specific geographical cultural and socio economic conditions It thus reveals complex causal associations that are hard to recognize in urban environments Complete with a list of references used and recommendations for future research this book is a vital tool for progressive and pragmatic approaches to policy intervention and research in the field of illicit drug use      **Substance Use & Misuse** ,1999  
Substance Abuse Prevention in Multicultural Communities Jeanette Valentine,Judith Dejong,2014-07-16 This insightful volume describes a sample of prevention demonstration projects of the Center for Substance Abuse Prevention CSAP Substance Abuse Prevention in Multicultural Communities illuminates various aspects of prevention theory practice and research with a focus on the design implementation adaptation and outcome of specific demonstration programs Researchers work with prevention professionals to describe measure and intensify effects of interventions upon both intermediate problems and the ultimate long term goal of decreasing substance abuse Chapters in Substance Abuse Prevention in Multicultural Communities demonstrate how the CSAP demonstration logic model works The process of prevention program

design begins with an analysis of the root causes of the problem as defined by the specific community and illuminated by theory Comprehensive prevention programs that buttress community strengths and build on local resources are then designed to deal with these problems The programs you ll learn from include a leadership and substance abuse prevention program based on the social influence model for girls in grades 6 8 from four geographically and ethnically diverse communities a program intricately designed to build resiliency and protective factors within young at risk American Indian children in a Head Start program which addresses school transition school readiness school attendance and classroom based prevention activities a family skills training program for African American parents in substance abuse treatment which evolved in response to client and evaluation feedback a program for Native American families which uses a culturally oriented curriculum emphasizing traditional values beliefs and practices a coalition of neighborhood agencies organized to provide a comprehensive array of school and community based prevention services which impacted gang membership in inner city Latino youth a prevention program specifically designed to serve the diverse needs of Asian American youth from five different Asian ethnic communities a model substance abuse prevention program implemented to provide counseling mentoring and academic support to Hispanic and African American students in an urban public middle school the nationally recognized FAST program which strengthens the family and brings parents and schools together in building up protective factors for high risk elementary students a program that combines several complementary strategies to develop personal and communal empowerment in Native American communities Substance Abuse Prevention in Multicultural Communities illustrates the wealth of information generated by demonstration programs Unlike a standard research protocol that imposes and tests a rigid single focused intervention under carefully controlled circumstances these programs do science in real life situations documenting and measuring effects of multiple interventions

**Cumulated Index Medicus** ,1997 *Handbook of Drug Abuse Prevention* Zili Sloboda, William J. Bukoski, 2007-08-06 There are a number of reasons why this book is important First there is no one source that summarizes what we know about the prevention of substance abuse from the research field so the book serves as a repository of accumulated knowledge on prevention theory intervention design and development and prevention research methodology Second as an evolving field prevention science has only begun to assert itself in both the arenas of practice and policy The formation of the Society for Prevention Research in 1991 was the first recognition that a science of prevention existed and required a separate forum to present the rapidly growing content of the field for discussion and review Finally there is a need to establish a baseline a reference point against which progress in the field of prevention science can be assessed This book serves all of these purposes The idea for this book grew from the observation in the early 1990s that after decades of attempts to develop effective interventions to prevent drug use among children and adolescents in the United States that we were finally having success particularly in addressing the initiation of use These successes are the result of research that has provided a better understanding of the factors and processes associated with the onset of substance use **Handbook on Drug Abuse** ,1979

*NIH Guide for Grants and Contracts* National Institutes of Health (U.S.),1994      Handbook of Crime Correlates Lee Ellis, Kevin M. Beaver, John Wright, 2009-05-07 Over the past two centuries many aspects of criminal behavior have been investigated Finding this information and making sense of it all is difficult when many studies would appear to offer contradictory findings The Handbook of Crime Correlates collects in one source the summary analysis of crime research worldwide It provides over 400 tables that divide crime research into nine broad categories Pervasiveness and intra offending relationships Demographic factors Ecological and macroeconomic factors Family and peer factors Institutional factors Behavioral and personality factors Cognitive factors Biological factors Crime victimization and fear of crime Within these broad categories tables identify regions of the world and how separate variables are or are not positively or negatively associated with criminal behavior Criminal behavior is broken down into separate offending categories of violent crime property crime drug offenses sex offenses delinquency general and adult offenses and recidivism Accompanying each table is a description of what each table indicates in terms of the positive or negative association of specific variables with specific types of crime by region This book should serve as a valuable resource for criminal justice personnel and academics in the social and life sciences interested in criminal behavior
