Rethinking Drug Use in Sport Bob Stewart, Aaron Smith, 2014-01-10 Drug free sport is an unattainable aspiration In this critical paradigm shifting reappraisal of contemporary drug policy in sport Bob Stewart and Aaron Smith argue that drug use in sport is an inexorable consequence of the nature structure and culture of sport itself By de mythologising and de moralising the assumptions that prop up current drug management controls and re emphasising the importance of the long term well being and civil rights of the athlete they offer a powerful argument for creating a legitimate space for drug use in sport The book offers a broad ranging overview of the social and commercial pressures impelling drug use and maps the full historical and social extent of the problem With policy analysis at the centre of the discussion the book explores the complete range of social management

policy scientific technological and health issues around drugs in sport highlighting the irresolvable tension between the zero tolerance model as advanced by WADA and the harm reduction approach adopted by drug education and treatment agencies While there are no simple solutions as long as drugs use is endemic in wider society the authors argue that a more nuanced and progressive approach is required in order to safeguard and protect the health social liberty and best interests of athletes and sports people as well as the value of sport itself An Introduction to Drugs in Sport Ivan Waddington, Andy Smith, 2009-01-13 An Introduction to Drugs in Sport provides a detailed and systematic examination of the extent of drug use in sport and attempts to explain why athletes have over the last four decades increasingly used performance enhancing drugs Richly illustrated throughout with case studies and empirical data this book is essential reading for anybody with an interest in the relationship between drugs sport and society **S. 1114, the Clean Sports Act of 2005, and S. 1334, the Professional Sports Integrity and Accountability Act** United States. Congress. Senate. Committee on Commerce, Science, and Transportation, 2006 **Dying to Win** Barrie Houlihan, 2002-01-01 Drug abuse in sport has now become an acute international problem which undermines the integrity of sport and is a real danger to the health of thousands of athletes The second edition of this publication has been updated to take account of new forms of drug abuse in the sports world as well as developments in genetic engineering and gene therapy It also contains a list of useful internet sources A key finding is that the control of doping including the harmonisation of both practice and policy among the major world sports bodies requires a re evaluation of the direction of future anti doping policy particularly in the light of the recent establishment of the World Anti Doping Agency
