Conversations with Great Jazz and Studio Guitarists Jim Carlton, 2012-02-28 Jazz Guitar Reference Features in depth interviews with 22 of the industry's most notable guitar players Jim Carlton's candid conversations render astute insight into revered jazz guitarists the history and development of jazz guitar and the studio scene that flourished during its Golden Era to the present day It's a book brimming with behind the scenes anecdotes little known vignettes and the stories behind many hit recordings an often hilarious book that conveys the sense of humor and iconoclasm that's so prevalent among great artists

Civic Jazz Gregory Clark, 2015-02-25 Greg Clark welcomes his readers by asking them to accompany him on a trip to a New Orleans club where the warmth of the music and the warmth of the audience instill a special feeling of communion of getting along Clark's book treats the idea that jazz demands from those who make it as well as those who listen a form of life that substantiates the seemingly impossible American value that is *e pluribus unum* The process of getting along in communication in community is something the great student of culture and rhetoric Kenneth Burke spent his life trying to describe Clark has found that jazz as an activity and a cultural form goes a long way toward illustrating that process Jazz is often described as democratic Burke's rhetorical and aesthetic ideas explain how this is so Working with others to address immediate problems they share can align for a time individuals who are otherwise very different That is what jazz does it enables people who are different and even in conflict with each other to combine in cooperation toward an end that matters to all of them just now And this too is what civic life in democratic cultures demands In chapters that deal with such issues as what jazz does and how jazz works Clark uses examples from jazz history from Louis Armstrong and Earl Hines to Miles Davis and Bill Evans but also from contemporary jazz both recorded and live e.g. pianist Jonathan Batiste and his Social Music drummer Terri Lyne Carrington and her collaborative Mosaic Project or the newly emergent vocalist Cecile McLorin Salvant all of this in the service of making improvisation and ensemble work yield the experience of transcendence that results from intense engagement with jazz as aesthetic form for players and listeners alike The resulting book is a study of jazz in the context of American aspirations toward democratic interaction and a study of Kenneth Burke's democratic rhetorical theory and practice as essentially aesthetic in function and effect Marcus Roberts the much lionized neoclassical pianist crafts a Foreword that points to practical ways these ideas can work to improve and inspire both musicians and citizens

Patnaik takes readers inside big companies like IBM Target and Intel to see widespread empathy in action But he also goes to farmers markets and a conference on world religions He dives deep into the catacombs of the human brain to find the biological sources of empathy And he spends time on both sides of the political aisle with James Carville the Ragin Cajun and John McCain a national hero to show how empathy can give you the acuity to cut through a morass of contradictory information Wired to Care is a compelling tale of the power that people have to see the world through each other's eyes told with passion for the possibilities that lie ahead if leaders learn to stop worrying about their own problems and start caring about the world around them As Patnaik notes in addition to its considerable economic benefits increasing empathy for the people you serve can have a personal impact as well It just might help you to have a better day at work
