Drunkcow Landmines:

Drunkcow Landmines Daryl Meakes, 2004-11 Drunkcow landmines are wickedly unusual but oddly believable stories that have been passed along by someone who believes the story to have happened to a friend of a friend **Franz Joseph and Elisabeth** Karen Owens, 2013-11-20 In 1848 an 18 year old boy assumed the throne of Austria one of the most powerful countries in Europe He would be its last significant emperor the only monarch to serve two countries and the last cogent head of the prestigious Habsburg dynasty Emperor Franz Joseph's reign was marked by revolutions often fueled by rising liberalism and nationalism and wars orchestrated by conquering architects such as Napoleon Metternich and Bismarck This book gives attention to these political and cultural events but it is moreover a biography of Emperor Franz Joseph and his enigmatic wife Empress Elisabeth *Campus Traditions* Simon J. Bronner, 2012-09-15 How American campus life shapes students and how students shape campus lore **Caçador de mentiras** Gilmar Lopes, A legião de Pinquios pelo mundo cresce a cada dia Gente que espalha mentiras muitas vezes inocentemente achando que só o puro creme da verdade Afinal aquela mensagem assinada por um médico que você não sabe quem por um importante cientista de quem você nunca ouviu falar ou por um papa da autoajuda só pode estar correta E todo meiga Ali só foi um querido amigo seu que mandou pelo WhatsApp Ainda bem que tem gente varrendo essa praga das redes sociais e do mundo e colocando as mentiras no seu devido lugar no lixo O autor deste livro um incansável batalhador dessa causa e faz isso de uma forma divertida sem jamais perder a objetividade A narrativa convincente os exemplos só do nosso dia a dia Descubra as ferramentas e estratégias empregadas por um habilidoso caçador de mentiras para expor histórias enganosas e mostrar que a realidade pode não ser a oitava maravilha do mundo Mas muito melhor do que se deixar iludir perder o discernimento e viver com seu nariz crescendo a cada minuto **Landmines in War and Peace** Mike Croll, 2009-04-21 Land mines and their antecedents have been used on the battlefield from ancient times through the world wars to the modern conflicts in the developing world Their use in the developing world caused tens of thousands of civilian casualties and the resulting international outrage transformed rapidly into a highly effective global movement to ban land mines and a multi million dollar mine action business This book describes how technology and military tactics defined land mine development and deployment why they are such an effective weapon of war and how an unlikely alliance of soldiers peace activists development workers and celebrities succeeded in banning the use of antipersonnel mines Comparisons are made between the post WW2 clearance of around 100 million land mines in Europe and contemporary efforts to clear a similar number in the developing world By 1947 Europe was largely mine free yet after nearly 20 years and expenditure of 4 billion the land mine crisis in the developing world continues The elusive search for the easy way to clear mines is described Despite experiments with machines airships rats and explosive clearance methods mine clearance remains a hazardous labor intensive task undertaken by teams of deminers using metal detectors and needle like probes **After the Guns Fall Silent** Shawn Roberts, Jody Williams, 1995-01-01 Years after peace treaties

have been signed and military conflict is nominally over anti personnel mines continue to claim innocent lives This text offers data showing that landmines victimize civilians in direct contravention of the Geneva convention and examines the impact landmines have on people on their communities and on their outlook and view of life The report commissioned by the VVAF examines the consequences of landmine use on post conflict reconstruction and development on refugee movement and resettlement and on the environment It also investigates mine clearance and mine awareness and medical rehabilitative and psychological costs Using original research the report uses case studies from countries including Angola Mozambique Cambodia and the former Yugoslavia Scholarly and accurate analysis combines with people s own words and real personal stories to present a detailed evaluation of the effect of this most potent of weapons This work is published by the Vietnam Veterans of America Foundation and distributed in the UK and Ireland by Oxfam

Landmines and Unexploded Ordnance Rae McGrath,2000-03-20 If the scourge of landmines is ever eradicated much of the credit must go to Rae McGrath and this meticulous principled book reminds us why John Pilger Landmines and unexploded ordnance continue to kill maim and

impoverish innocent civilians in many of the world's poorest countries Rae McGrath's authoritative book is an invaluable resource for anyone wanting to understand the impact of these persistent killers and how best to respond to them Richard Lloyd UK Working Group on Landmines Written by a Nobel Peace Prize co laureate who is one of the leading voices in the anti landmines campaign this timely book is a comprehensive practical guide to landmines and unexploded ordnance

Winslow,1998-10-01 Each year an estimated twenty six thousand people are killed or maimed by land mines more than 100 million of them sown like the mythical dragon's teeth in over seventy countries These weapons are designed to maim soldiers but most victims are civilians especially the rural poor Winslow writes about these people and the Campaign to Ban Landmines which was awarded The Nobel Peace Prize in 1997 He tells about the efforts to pull the dragon's teeth from the earth so that it can be restored to those who live on it **Landmines and Human Security** Richard A. Goose,Mary Wareham,2008-03-20 Looks at accomplishments and setbacks in the crucial first decade of the 1997 Mine Ban Treaty From publisher description *Negotiating Minefields* Leon V. Sigal,2013-05-13 Against all odds the International Campaign to Ban Landmines helped to enact a global treaty banning antipersonnel mines in 1997 For that achievement it was awarded the Nobel Peace Prize In this volume Leon Sigal shows how a handful of NGOs with almost no mass base got more than 100 countries to outlaw a weapon that their armies had long used It is a story of intrigue and misperception of clashing norms and interests of contentious bureaucratic and domestic politics It is also a story of effective leadership of sustained commitment to a cause of alliances between campaigners and government officials of a US senator who championed the ban and of the skilful use of the news media Despite this monumental effort the campaign failed to get the United States to sign the treaty Drawing on extensive internal documents and interviews with US officials and ban campaigners Sigal tells the story of the in fighting inside the Clinton administration in the Pentagon and within the ban campaign itself that led to this major setback for an otherwise unprecedented successful global effort Negotiating

Minefields will be of interest to students and scholars of military and strategic studies and politics and international relations

Disarming States Ken Rutherford, 2011 Reveals the critical role that non governmental organizations NGOs played in facilitating the Mine Ban Treaty MBT prohibiting anti personnel landmines APLs and how they enhanced their credibility in an area traditionally at the heart of state sovereignty weapons procurement and use Also provides a starting point for studying the role of NGOs in global security issues
