Dryden's Final Poetic Mode Cedric D. Reverand II, 2016-11-11 Two months before he died Dryden published a collection of verse translations and original poetry *Fables Ancient and Modern* the work for which he was most admired throughout the eighteenth and nineteenth centuries Cedric Reverand argues that *Fables* which has for the most part escaped modern scrutiny embodies a purposeful subversive strategy and constitutes a new poetic mode that emerged when the laureate public spokesman for king and country lost his official post and became an outcast a minority voice In Dryden's Final Poetic Mode Reverand focuses on Dryden's characteristic concerns love and war power and kingship the heroic code the Christian ideal tracing how Dryden assembles informing ideals and yet dissolves them as well By examining Dryden's treatment of familiar issues Reverand demonstrates that this final poetic mode is not discontinuous with the earlier poetry but is a further development a reevaluation of the principles that sustained the poet throughout his career *Fables* expresses Dryden's personal experience dealing with a changed and changing world With the values he cherished crumbling he is trapped into trying to reconcile the irreconcilable His book reveals the fragility of various systems of value and the futility of discovering abiding ideals in a universe of perpetual flux but it also reveals a poet who actively pursues meaning rather than surrendering to despair It is this attempt to accommodate to a changing subversive world that Reverand asserts is the impulse behind *Fables* and the central issue of Dryden's life in the 1690s Dryden's Final Poetic Mode will interest students and scholars of seventeenth and eighteenth century British literature
