Black Feminist Anthropology, 25th Anniversary Edition Irma McClaurin, 2024-11-15 Black Feminist Anthropology Theory Politics Praxis and Poetics is a groundbreaking collection that centers the imaginative intellectual perspectives voices and experiences of Black American feminist anthropologists Twenty five years ago as the Foreword states this book dared to put three words together in the title Black Feminist Anthropology that have not always kept company with each other and in the minds of many both in and outside of the academy they should remain separate Standing the test of time it is still a bold reimagining of anthropology and all social sciences as inclusive and decolonized while establishing a new Black feminist anthropology canon that decades later is too often taken for granted as normative Black Feminist Anthropology is filled with a message of theoretical possibilities that anyone who enters its pages will find healing life saving and an affirmation that Black women anthropologists have contributed much to the theory politics praxis and poetics of anthropology gender and women s studies masculinity studies queer studies the social sciences generally and any other discipline that seeks transformation from the inside out It is both an archive and a legacy for the next generation Drylongso John Langston Gwaltney, 1980 *Legal History of the Color Line* Frank W. Samy Alim, Angela Reyes, Paul V. Kroskrity, 2020-10-02 Over the past two decades the fields of linguistic anthropology and sociolinguistics have complicated traditional understandings of the relationship between language and identity But while research traditions that explore the linguistic complexities of gender and sexuality have long been established the study of race as a linguistic issue has only emerged recently The Oxford Handbook of Language and Race positions issues of race as central to language based scholarship In twenty one chapters divided into four sections Foundations and Formations Coloniality and Migration Embodiment and Intersectionality and Racism and Representations authors at the forefront of this rapidly expanding field present state of the art research and establish future directions of research Covering a range of sites from around the world the handbook offers theoretical reflexive takes on language and race the larger histories and systems that influence these concepts the bodies that enact and experience them and the expressions and outcomes that emerge as a result As the study of language and race continues to take on a growing importance across anthropology communication studies cultural studies education linguistics literature psychology ethnic studies sociology and the academy as a whole this volume represents a

timely much needed effort to focus these fields on both the central role that language plays in racialization and on the enduring relevance of race and racism     *National Union Catalog* ,1983     *AB Bookman's Weekly* ,1996     *American Book Publishing Record* ,1992     *National Union Catalog* ,1980 ,1981     **Oral History and Delinquency** James Bennett,1988-01-15 From Henry Mayhew s classic study of Victorian slums to Studs Terkel s presentations of ordinary people in modern America oral history has been used to call attention to social conditions By analyzing the nature and circumstances of the production of such histories of delinquency James Bennett argues that oral history is a rhetorical device consciously chosen as such and is to be understood in terms of its persuasive powers and aims Bennett shows how oral or life histories of juvenile delinquents have been crucial in communicating the human traits of offenders within their social context to attract interest in resources for programs to prevent delinquency Although life history helped to establish the discipline of sociology Bennett suggests concepts for understanding oral histories generated in many fields     *The Greenwood Encyclopedia of African American Folklore: A-F* Anand Prahlaḁ,2006 Contains over seven hundred entries on African American folklore including music art foodways spiritual beliefs and proverbs     **The Greenwood Encyclopedia of African American Folklore** Anand Prahlaḁ,2006     **Raising Biracial Children** Kerry Ann Rockquemore,Tracey A. thinkers as Angela Davis bell hooks Alice Walker and Audre Lorde The result is a superbly crafted book that provides the first synthetic overview of Black feminist thought      **Sista Talk** Rochelle Brock,2005 Sista Talk The Personal and the Pedagogical is an inquiry into the questions of how Black women define their existence in a society which devalues dehumanizes and silences their beliefs Placing herself inside of the research Rochelle Brock invites the reader on a journey of self exploration as she and seven of her Black female students investigate their collective journey toward self awareness in the attempt to liberate their minds and souls from ideological domination Throughout Sista Talk attempts to understand the ways in which this self exploration informs her pedagogy Combining Black feminist and Afrocentric Theory with critical pedagogy this book frames the parameters for an Afrowomanist pedagogy of wholeness for teaching Black students      *The Kaiser Index to Black Resources, 1948-1986: D-H* ,1992
