Bamba,2016-11-15 Throughout the 1960s and 1970s Ivory Coast was touted as an African miracle a poster child for modernization and the ways that Western aid and multinational corporations would develop the continent At the same time Marxist scholars most notably Samir Amin described the capitalist activity in Ivory Coast as empty unsustainable and incapable of bringing real change to the lives of ordinary people To some extent Amin s criticisms were validated when in the 1980s the Ivorian economy collapsed In African Miracle African Mirage Abou B Bamba incorporates economics political

science and history to craft a bold transnational study of the development practices and intersecting colonial cultures that continue to shape Ivory Coast today He considers French American and Ivorian development discourses in examining the roles of hydroelectric projects and the sugar coffee and cocoa industries in the country s boom and bust In so doing he brings the agency of Ivorians themselves to the fore in a way not often seen in histories of development Ultimately he concludes that the maldevelopment evident by the mid 1970s had less to do with the Ivory Coast s insufficiently modern citizens than with the conflicting missions of French and American interests within the context of an ever globalizing world *Catalog of Copyright Entries.
