Beyond Our Wildest Dreams Ineke van Kessel,2000 The 1980s in South Africa were marked by protest violent confrontation and international sanctions Internally the country saw a bewildering growth of grassroots organizations including trade unions civic associations in the black townships student and other youth organizations church based groups and women's movements many of which operated under the umbrella of the United Democratic Front UDF Beyond Our Wildest Dreams explores the often conflicted relationship between the UDF's large scale resistance to apartheid and its everyday struggles at the local level In hindsight the UDF can be seen as a transitional front preparing the ground for leaders of the liberation movement to return from exile or prison and take over power But the founding fathers of the UDF initially had far more modest ambitions Interviews with Cachalia and other leading personalities in the UDF examine the organization's workings at the national level while stories of ordinary people collected by the author illuminate the grassroots activism so important to the UDF's success Even in South Africa writes Ineke van Kessel who covered the anti apartheid movement as a journalist resistance was not the obvious option for ordinary citizens Van Kessel shows how these people were mobilized into forming a radical social movement that developed a highly flexible and innovative form of resistance that ultimately ended apartheid From publisher's description

Melancholia of Freedom Thomas Blom Hansen,2012-07-22 The end of apartheid in 1994 signaled a moment of freedom and a promise of a nonracial future With this promise came an injunction define yourself as you truly are as an individual and as a community Almost two decades later it is clear that it was less the prospect of that future than the habits and horizons of anxious life in racially defined enclaves that determined postapartheid freedom In this book Thomas Blom Hansen offers an in depth analysis of the uncertainties dreams and anxieties that have accompanied postapartheid freedoms in Chatsworth a formerly Indian township in Durban Exploring five decades of township life Hansen tells the stories of ordinary Indians whose lives were racialized and framed by the township and how these residents domesticated and inhabited this urban space and its institutions during apartheid and after Hansen demonstrates the complex and ambivalent nature of ordinary township life While the ideology of apartheid was widely rejected its practical institutions from urban planning to houses schools and religious spaces were embraced in order to remake the community Hansen describes how the racial segmentation of South African society still informs daily life notions of race personhood morality and religious ethics He also demonstrates the force of global religious imaginings that promise a universal and inclusive community amid uncertain lives and futures in the postapartheid nation state
