Dreams And Realities:

Dreams, Illusion, and Other Realities Wendy Doniger O'Flaherty, 2015-05-14 Wendy Doniger O'Flaherty weaves a brilliant analysis of the complex role of dreams and dreaming in Indian religion philosophy literature and art In her creative hands enchanting Indian myths and stories illuminate and are illuminated by authors as different as Aeschylus Plato Freud Jung Kurl G del Thomas Kuhn Borges Picasso Sir Ernst Gombrich and many others This richly suggestive book challenges many of our fundamental assumptions about ourselves and our world Mark C Taylor New York Times Book Review Dazzling analysis The book is firm and convincing once you appreciate its central point which is that in traditional Hindu thought the dream isn't an accident or byway of experience but rather the locus of epistemology In its willful confusion of categories its teasing readiness to blur the line between the imagined and the real the dream actually embodies the whole problem of knowledge O'Flaherty wants to make your mental flesh creep and she succeeds Mark Caldwell Village Voice

Dreaming Realities John Overdurf, Julie Silverthorn, 1998-08-04 This refreshing approach to the act of dreaming allows you to explore your full potential through the control of your dreams It aches the reader how to construct dreams that will improve reality and demonstrates how such dreams directly affect our lives

The Human Behavior Valentin Matcas,2018-04-20 Your behavior consists of everything that you do in life knowingly and unknowingly Even more your behavior represents and is a consequence of everything that you need mean and think throughout life Yet it was so easy to manage your life if your behavior was so easy to define because you always live your life alongside the rest of society and always influenced by the rest of the world in every manner You are a social value highly useful to others and this is how others end up controlling you and your behavior according to their own needs and reasoning with or without your consent And this is how you behave and live your life in society you influence and you are influenced by others continuously according to your needs beliefs duties capabilities orders and agendas And you do so successively continuously and many times simultaneously throughout life and throughout society Even more your social behavior does not define you entirely since your private hidden behavior is distinct from your open social one You work hard to keep this shadow behavior unnoticed and at bay but now when you consider it you realize that it defines you more than everything else This has always been the case it can make life fun and exciting at times yet it can become dangerous and expensive Because it has become a continuously hidden need that you are forced to fulfill consistently and many times you would rather avoid this private behavior if you only knew how What happens is that the entire world lives in this major dissociation because everybody seeks privacy and intimacy in life for various reasons as everybody lives in the hiding most of the time overwhelmed guilty and confused And now you seek to find out why you behave in this manner you want to know what you can do in order to change and improve your behavior you seek to know how to educate your children towards adopting a good behavior in life and in the world and this is why you read this book Throughout this book you learn everything about the human behavior everything necessary to help you control yourself understand others and develop to higher levels along with everything necessary for you to help and educate others to behave well while developing consistently to higher levels

Astral Planes and Your Other Realities Valentin Matcas,2016-04-20 Can you visit other planes and realities But can you live other lives there in your other planes and realities People can always tell beautiful paranormal stories or who knows you might have already been there yourself saw

them felt them and now this is why you search through all higher knowledge to learn more about your experience But was it real Are your other worlds real as real as this world All realities are real in a rather trivial manner And even more all realities are objectively real but only as long as you are there Since existence defines them similarly determining closely your continuous firsthand experience Furthermore many realities are part of life part of this life that we have here in this world And now if you have found your way into these other planes of existence in a conscious manner it might have been a natural process altogether and not exactly a random experience It had a purpose while you might have missed fulfilling it and now it is certainly meaningful to know everything that you can ever discover Yet if you have never had a paranormal experience yourself and now you simply wonder what is going there are very powerful drugs that you take regularly with your food drinks drugs and medicine meant to hold you forcefully in this world And now this is exactly what you do you remain here nicely for life And it happens with everybody or almost depending on where you live or depending on your development and genetic background There is a difference between astral planes the natural human environment and your other realities Because existence comes in three distinct levels used to distinguish between your higher and lower realities While you can understand all your realities through your mind reasoning awareness and imagination since even this world makes sense to you only as part of your reasoning awareness mind and imagination and not exactly directly as anyone may expect And this is the case because there is no other way to experience anything in life and in the wider world but through your perception reasoning and understanding and through the multitude of your selves intelligences and identities present throughout all your realities And this is why you cannot understand astral planes along with your other realities if you do not understand your cognitive system first along with your intelligences selves memories and expectations since everything is interconnected This interesting entanglement of meanings and constraints causes the ultimate truth of your wider existence to remain hidden beneath strong consensual conditions and within tedious loops of reasoning remaining inaccessible in this manner to the ignorant and to the unconditional follower of common ideologies while allowing the truth only to those living life freely consciously and in full awareness and understanding of the wider world through the fulfillment of all natural higher level needs and meanings Because these are your developmental opportunities that you experience in each one of your worlds and realities while following the fulfillment of your natural intelligent human needs for higher experience and higher development This book studies you and your life and existence throughout all your realities that you employ encounter inhabit create and co create throughout your wider existence helping you understand who you are through all your selves and intelligences as you live your life throughout all your worlds and realities If you seek to gain wider understanding of who you truly are this book is for you

The Human Intelligences Valentin Matcas, 2016-04-20 The human mind has two main intelligences the conscious and the subconscious yet this is only a scientific observation meant to define what you access consciously in your mind and what you do not While you want to know everything about the human mind in order to access everything but how can you when you cannot even define it Since there is more to the human mind than what psychology offers and you can certainly tell since it is always in your mind but never in textbooks The two main human intelligences are subdivided into further intelligences which also include their own inner intelligences and it is relevant to know everything Because your subconscious intelligence has its own primal subconscious intelligences specialized in the entirety of your bodily activity as eating recovery socialization reproduction development security learning cooperation wellbeing and interconnectivity But are these your primal intelligences or you are these primal intelligences altogether Who or what exactly are you From a cognitive perspective you may identify yourself with your conscious intelligence since this offers you awareness and conscious reasoning You are certainly aware of all subconscious intelligences stated above yet there are more human intelligences interacting with you and with your entire cognitive system continuously with some exceeding the human mind altogether Additionally you may always employ artificial and consensual human intelligences to enhance your experience and achievement in life at a significant cost since it takes from your natural fulfillment And in this manner you live your life through many intelligences even unknowingly pleasantly or not as these send you your needs and feelings continuously and this is all that you know Apart from needs feelings reasoning and awareness the human intelligences offer a variety of interfaces identities selves and companions to use throughout life you may identify them with ease since they are in your mind while others can reach beyond and it is significant to know them as this adds to your complexity and uniqueness in life Who are you You know well your conscious intelligence since you control it while you are interested in the subconscious intelligence since it remains out of your reach it governs you from the shadows of your mind and if you are not careful it ruins

your life since it can go against your will making everything rather challenging and unexpected And if you only knew more about your conscious and unconscious main human intelligences then you were certainly more fulfilled and more successful in life This book studies the human intelligences as these inhabit form and maintain the human mind in all details and from all perspectives You have the chance to identify and understand all your intelligences allowing you to reason and behave in the most adequate manner toward achieving your harmony meaning and fulfillment in life and in the world **The**
