futuristic war machines starting with Arthur's new kingdom *The Lex Chronicles Trilogy E-Book Collection* Crystal Crawford, 2019-04-16 This box set collection contains ALL THREE e-books in The Lex Chronicles Trilogy. Legends of Arameth: An evil force terrorizes Arameth but those out to stop it have a serious problem: their prophesied hero is dead. Centuries ago a malevolent magicborn overtook Arameth, fracturing their world and unleashing a devastating war between magicborn and their non-magic neighbors. To protect their magical heritage, the Ancients of Arameth sealed themselves off in The Core, wiping all memory of magic from the ordinary people. The remaining magicborns retreated into hiding, unable to use their abilities for fear of inciting the wrath of the Ancients' dark regime or the terror of their own neighbors. Two hundred years later, the damage wreaked by the Fracture threatens to unravel their world. A dark energy from The Core is slowly corrupting once beautiful Arameth, and the Worldforce, the source of all Arameth's magic, is destabilizing. The heroes sworn to restore the balance fail catastrophically in their final battle, and tensions peak between the peoples of Arameth. Fluctuations in the unstable Worldforce bring frequent disasters. But not all of Arameth's problems come from The Core. Lex is a seventeen-year-old with no memories before this morning and no clue why a group of villagers want him dead. Realizing they have mistaken him for a destructive magicborn who slaughtered innocents in their village, Lex flees for his life, only to discover he's more tangled in the conflicts of the past than he ever imagined. And the mysterious girl he stumbles upon during his escape creates a whole new set of problems. An epic fantasy portal fantasy soft sci-fi mashup, this trilogy is teeming with quirky characters, fantastical creatures, surprises, and suspense. With subtle, clean, sweet romance, high-stakes adventure, and a strong focus on friendship and second chances, this all feels like a fantasy series that will keep you flipping the pages. Fan Phenomena: Game of Thrones Kavita Mudan Finn, 2017-05-01 Winter is coming. Every Sunday night, millions of fans gather around their televisions to take in the spectacle that is a new episode of Game of Thrones. Much is made of who will be gruesomely murdered each week on the hit show, though sometimes the question really is who won't die a fiery death. The show, based on the Song of Ice and Fire series written by George R. R. Martin, is a truly global phenomenon. With the seventh season of the HBO series in production, Game of Thrones has been nominated for multiple awards; its cast has been catapulted to celebrity, and references to it proliferate throughout popular culture. Often positioned as the grittier antithesis to J. R. R. Tolkien's Lord of the Rings, Martin's narrative focuses on the darker side of chivalry and heroism, stripping away these higher ideals to reveal the greed, amorality, and lust for power underpinning them. Fan Phenomena: Game of Thrones is an exciting new addition to the Intellect series, bringing together academics and fans of Martin's universe to consider not just the content of the books and HBO series but fan responses to both. From trivia nights dedicated to minutiae to forums speculating on plot twists to academics trying to make sense of the bizarre climate of Westeros, everyone is talking about Game of Thrones. Edited by Kavita Mudan Finn, the book focuses on the communities created by the books and television series and how these communities envision themselves as consumers, critics, and even creators of fanworks in a wide variety of media, including fiction, art, fancasting, and
