Beyond Dreaming - An In-Depth Guide on How to Astral Project & Have Out of Body Experiences Gene Hart, 2021-05-26
REVISED EDITION 2024 Are you having no luck with Astral projection Discover the spiritual and wholesome approach to attaining out of body states of awareness which leads to more vivid and profound experiences The approach in this book is on the practical understanding of out of body consciousness rather than on intellectual debate or speculation It aims to address frequently asked questions that Gene has received from hundreds of people struggling to achieve Astral projection As explained in the book Through practical understanding alone we get rid of the need for ineffective methods and complex practices which harbour self doubt often seen in books which promise quick results through techniques backed by little explanation When we instinctively comprehend the mechanics behind out of body experiences we adopt our own intuitive practice Furthermore the book explores the difference between lucid dreaming and out of body experiences and how both these phenomena serve a significant purpose towards our spiritual progress One way to understand this is through realising that most of us are in a continuous dream like state that often has a firm grip over our awareness while we re awake and also while we re asleep this is key in understanding how to go beyond layers of subconscious perception in order to reach higher objective states of consciousness If we wake up out of our dreams during the day then we also have more chance of becoming conscious during our dreams at night too As Above So Below Learn about how following the path of Astral projection enhances our mental emotional and physical health and overall quality of waking life the practice does not just apply to our non physical experiences during sleep Gene s knowledge is based on over a decade of deep meditation hundreds of out of body experiences and several years spent being part of a Gnostic group He has only one wish for you to experience conscious out of body travel with all of your senses in tact just as you are here and now reading this Below are just some of the things you will learn in this guide Overcoming fear of the other side How to rely on intent rather than methods Several step by step methods and exercises How meditation greatly benefits Astral projection Analysing and understanding your failed attempts How to stay grounded and present once out of body How dreaming at night is no different than when we daydream How Astral projection is a deeply spiritual practice of self realisation Gene is dedicated to helping others achieve Astral projection and has provided contact details and extra resources at the end of the book Dreams Beyond Dreaming Jean Campbell, 1980 DREAM BEYOND THE STARS A JOURNEY OF MEMORY, LIGHT, AND AWAKENING ARTIOM PODGURSCHI, Dream Beyond the Stars A Journey of Memory Light and Awakening is a poetic and philosophical exploration of consciousness the soul and the mysterious realm that lies beyond the visible world Through a fusion of memory dreamscapes and cosmic reflection this book invites readers to awaken the deeper layers of their being and reimagine their place in the universe Weaving together insights on light time and identity the narrative unfolds like a lucid dream each page a portal to inner truths and ancient knowledge long buried within us Whether you are a seeker of meaning a lover of
