Dreams Of Orchids:

Dream of Orchids Phyllis A. Whitney, Kate Harper, 1989 **Dreams of Orchids** Phyllis Whitney, 1985 The Dream Dictionary Theresa Cheung, 2023-09-19 An A to Z guide to interpret the meanings of dreams with references to symbolism hidden meanings and how specific aspects of dreams may relate to the dreamer's life situation **Dreams: A Literary Anthology** Bob Blaisdell, 2023-11-15 This anthology is a collection of fascinating dreams experienced by famous authors and their characters drawn from various sources including classical literature novels and poetry Selections from the Brontë sisters Dostoyevsky Poe Shakespeare and other dreamers **Dreams (As I See Them)** Olga Alicia Rippo, 2008-03-31 Dreaming according to my personal and convincing analysis is the reviewing of the previous day's activities and committing them to memory Each dream episode is symbolized by what we already have stored in our memory banks Emotions or events will evoke a symbol that will appear in the dream along with other symbols already encoded to create a story line that seems strange funny or even slightly confused The massive numbers of memories we have would be impossible to categorize separately It is much more efficient to draw out these encoded symbols from our memory and store yesterday's memorable happenings in the same code If we do not have a symbolic representation for something or someone then that person item or activity will represent itself and create a new code What compounds the mystery of symbolism is that each individual has established his own very personal ones throughout his own life experiences Thus no one is truly able to decipher another's dream A dream can even be the result of a radio or TV story heard during sleep and absorbed into the dream The dialogue may be repeated quite accurately but the dreamer creates his own picture images I have experienced this quite often waking to ask Why did she or he say this or that and compare the reality to my dream scenes Perhaps we should give credence to the possibility that we might learn during sleep while a recorded voice recites the lesson repeatedly On the other hand watching a TV program that impresses or evokes certain emotions can trigger a dream later with our own symbols to create our own episode A sound can produce a quick little dream Instantaneously between a click before an alarm rings and the ring itself can cause a flash of a dream according to what that sound conjured up from our memory bank If a sound does not wake us we will weave it into our dream story in marvelous ways Just a touch that probably would be unexplainable unless one woke up to the ongoing sound and recognize it as having been in our dream Recurring dreams I am convinced represent a certain emotion or feeling that we experienced somewhere back in time and that scene is brought forward whenever it is needed to depict that emotion The scene is representative of a prior emotional experience and comes forth as the same scene in our dream each time that same emotion is reflected from the previous day Thus the recurrence Our life experiences being different so would our storage areas be comprised of different methods of remembering The swimming scenes that recur occasionally in my dreams are always very pleasing to me Even though I do not swim simply watching swimmers evokes a relaxing soothing sensation within me I'm sure the previous day had pleasurable times that were being reflected On the other

hand when I dream of flooding or turbulent water a negative experience in the previous day is revived in that same night's dream as an unpleasant water scene. Actually the last swimming episode in my life was a near disaster for me and perhaps that particular occasion was the one that influences the negative evocation of water. Yet strangely enough watching people swim is a pleasure to me hence the positive sensation. Other emotions anxiety sadness fear anger joy etc are represented in a symbolic manner that is unique to us alone as is the original encoded episode. We require codes or symbols as mental shorthand to store in a compact unit the massive number of thoughts activities and emotions we experience during a lifetime. The recurrence of certain episodes or metaphors eliminates the necessity to store another code. I believe it is erroneous to infer mystical or psychological interpretations. Dreams are a natural function of the marvelous composition of the human body such as blinking swallowing smiling etc. There has not been a single dream that I have been unable to reconcile with the activities.
