Transpersonal Ecosophy, Vol. 1: Theory, Methods and Clinical Assessments Mark A. Schroll, 2016-01-24 The image on the cover of this book represents the idea that brain state alterations at sacred sites allow us to re experience memories that are woven into the morphogenetic fields of that place an idea that originates with Paul Devereux's empirical enquiry into dreams at sacred sites in Wales and England This book examines how this investigation provides us with a new way of understanding consciousness and a new direction toward a reconciliation of the divorce between matter and spirit We explore the work of David Lukoff and Stanislav and Christina Grof the connections between the varieties of transformative experience in dream studies ecopsychology transpersonal psychology and the anthropology of consciousness as well as the overlap between David Bohm's interpretation of quantum theory and Rupert Sheldrake's hypothesis of formative causation

The Dreaming Universe Fred Alan Wolf, 1995-06 Wolf provides a provocative exploration of the mysteries of how and why we dream artfully combining anthropology psychology and physics to present his revolutionary theory that establishes previously unrecognized links between the physical act of dreaming and the development of consciousness Line art

Dream To Freedom Robert Hoss, Lynne Hoss, 2013-06-01 Dreams are often laden with emotion Not only do the dreams themselves contain emotional

triggers but a frightening dream can leave us stressed and shaken in waking life. We might also be anxious about the possible recurrence of a bad dream. The Dream to Freedom technique is an effective way to address both the fear-producing aspects of dreams and the waking anxiety associated with the possible recurrence of the dream. Using a structured approach drawn from traditional Gestalt therapy, it identifies emotionally triggering elements of a dream and then applies EFT, also known as tapping, to each one in turn. Robert and Lynne Hoss are pioneers of the Dream to Freedom technique, which shows you the hidden meaning of each dream element. This practice, when combined with EFT, often provides surprising insights about the link between the dream and your waking life problems. Dream to Freedom guides you on an imaginal journey to creating positive outcomes in your dreams. It's also been used to evoke lucid dreams, eliminate recurring nightmares, remember forgotten dreams, access subconscious creativity, heal old childhood traumas, reduce emotional triggering when you can't recall a specific event, heal anxiety, depression, panic attacks, and other psychological problems. Tap within dreams. Dream to Freedom represents one of the most fascinating frontiers in which EFT can be applied and is recommended for longtime dreamwork students as well as those with a more casual interest in the intersection between dreamwork, personal growth, and EFT.

Dream Work Jeremy Taylor, 1983. All people dream regularly regardless of their circumstances, whether they remember their dreams upon awakening or not. From the beginning of human history, dreams have been a source of creative inspiration and spiritual renewal, emotional and psychological insight, and scientific and cultural innovation.

Dreaming Wide Awake David Jay Brown, 2016-08-15. A detailed guide to mastering lucid dreaming for physical and emotional healing, enhanced creativity, and spiritual awakening. Offers methods to improve lucid dreaming abilities and techniques for developing superpowers in the dream realm. Explains how to enhance dreaming with supplements, herbs, and psychedelics. Explores the ability of lucid dreamers to communicate with the waking realm and the potential for shared lucid dreaming and access to our unconscious minds. In a lucid dream, you awaken within your dream and realize you are dreaming. With this extraordinary sense of awakening comes a clear perception of the continuity of self between waking and sleeping and the ability to significantly influence what happens within the dream, giving you the opportunity to genuinely experience anything without physical or social consequences. In this way, lucid dreaming offers therapeutic opportunities for fantasy fulfillment, fear confrontation, and releasing the trauma of past experiences. With development and practice, lucid dreaming can provide a powerful path to greater awareness, heightened creativity, spiritual awakening, and communication with the vast interconnected web of cosmic consciousness. In this detailed guide to mastering the practice of lucid dreaming, David Jay Brown draws from his more than 20 years' experience using these techniques and his interactions with dozens of experts on consciousness, physics, dreaming, and entheogens such as Stanley Krippner, Rupert Sheldrake, Stephen LaBerge, Robert Waggoner, Dean Radin, Terence McKenna, and many others. He explores the intimate relationship between lucid dreaming, shamanic journeying, visionary plants, and psychedelic drugs and how they are used for healing and spiritual development.

Offering methods for improving both lucid dreaming and shamanic journeying abilities he explains how to enhance dreaming with oneirogens supplements herbs and psychedelics and offers techniques for developing superpowers in the dream realm Summarizing the scientific research on lucid dreaming Brown explores the ability of lucid dreamers to communicate with people in the waking realm and the potential for dream telepathy shared lucid dreaming and access to the vast unconscious regions of our minds opening up a path that takes us beyond dreaming and waking to dreaming wide awake
