**Spiritual Intelligence** B. Anne Frey, 2008-01-23 This study explored the relationship between dreams discernment and  
spiritual intelligence It focused on the experience of people who use dreams to help them with spiritual discernment or  
decision making in a spiritual context A case study methodology included questionnaires personal dream records and  
interviews to understand the seven participants experiences of exploring their dreams for guidance Participants were self  
selected by answering an ad seeking people whose dreams had helped them to make a decision who journaled their dreams  
and who consider themselves to be spiritual Most participants reported being drawn to dreamwork by a significant life  
experience While participants shared different perceptions as to what discernment consists of each participant reported that  
dreams helped them to grow spiritually A number of outcomes were exemplified falling into two main groupings a the use of  
discernment in order to understand a dream whether or not they ended up reaching a resolution or making a decision about  
the dream and b the use of dreams as part of a discernment process whether or not the dreams helped them to resolve their  
discernment issue or make a decision The intensity of emotion attached to an issue seemed for some to render it more  
difficult to arrive at particular decisions For others dreams seemed to ease the burden of discernment or decision making by  
raising their degree of confidence towards their resolution or decision Deepening appreciation of and growing desire for  
living spiritually and learning more about spirituality were indicators of a developing spiritual intelligence For most spiritual  
growth occurred through knowledge or learning gained from their dreams For some their belief about God's role in their life  
impacted their experience of the Divine in their dreams Finally the study showed that individuals are not always aware of  
what had helped them suggesting a subconscious process at work in both discernment and decision making The study  
affirmed a triadic link between dreams discernment and spiritual intelligence among people involved in spiritual dreamwork  
It demonstrated ways by which the discernment process can build confidence in people who are turning to their dreams for  
guidance in a spiritual context     **Unlock Your Dream's Wisdom: A Journey of Self-Discovery and Personal Growth**
