F.O. Matthiessen and the Politics of Criticism William E. Cain, 1988 F O Matthiessen remains one of America's leading twentieth century critics in part because the problems he and his contemporaries struggled with remain ours today William E Cain studies Matthiessen's career with careful attention to biographical institutional literary and political contexts He considers Matthiessen's many reviews and essays on literature and deals sympathetically but critically with Matthiessen's attitudes toward the Cold War as revealed in his memoir From the Heart of Europe Cain draws connections between Matthiessen's criticism and the influence of significant political movements like the Popular Front of the 1930s the Progressive Party and Henry Wallace's campaign for the presidency in 1948 Analyzing specific texts by Thoreau James

Dreiser and Melville he confronts the difficult and highly contested relationships between literary criticism and politics scholarship and the public sphere pedagogy and social activism He suggests that critics need to acknowledge the primacy of their political commitments and should proceed to teach and write accordingly This argument certain to prove a controversial one will spark extensive debate and discussion about the theory and practice of intellectual work All students and scholars of English and American literature American studies black studies and American history will welcome this original and stimulating study the first to treat Matthiessen in fully detailed social historical and political contexts

An American Tragedy Paul A. Orlov, 1998 This book's premise is that a novel's ideas about the human drama are not necessarily the same as those its author consciously holds meaning that a close reading of Theodore Dreiser's artistic portrayal of modern America in *An American Tragedy* reveals the idea that he transcends the empirical premises of his presumed naturalistic thought to affirm the reality of the self and the importance of selfhood Based on this crucial premise and intensive analysis of the novel's text Professor Orlov's study develops an argument offering many original views of the Tragedy's meanings and artistry There is new light here on the fact that Dreiser sees the subversion of the idea of self in a highly materialistic society as the heart of his characters' tragic experiences Ultimately then this study suggests that *An American Tragedy* is an antinaturalistic statement about the self's intrinsic importance

Magill's Bibliography of Literary Criticism Frank Northen Magill, Stephen L. Hanson, Patricia King Hanson, 1979 [Selected Magazine Articles of Theodore Dreiser](#) Theodore Dreiser, 1985 This collection of Dreiser's early periodical writings covers his articles on American literary figures art and music criticism the American landscape and science technology and industry and his writings about the changing social conditions in American cities that he later drew on in his naturalistic novels

Pagan Dreiser Shawn St. Jean, 2001 Table of Contents

Transition Phase of the American Society in *An American Tragedy*: A Naturalistic Approach Guneshwor Ojha, 2015-05-29 In his masterpiece *An American Tragedy* the naturalist writer Theodore Dreiser depicts different pains of American society as it was stepping into the modern age The youths from the lower rung of the society detested the traditional norms and values and sought ways of transformation in the job market and opportunities brought about by industrialization However their dreams ambitions and efforts to ascend the social ladder ended up in a tragedy Dreiser the pioneer of naturalism in the American literary arena effectively depicts such phenomena through the life of his protagonist Clyde Brought up in a strict religious family characterized by abject poverty Clyde struggles to overcome the life of deprivation However he does not possess the mental ability and skills to overcome the difficulties of life and succumbs to vicious circle of circumstances Whereas realism portrays events and incidents of a society in a realistic manner naturalists go beyond realism to come up with the causes and explanations behind a real event By relying on psychology chemism mechanism and social forces Dreiser portrays how human life is devoid of free will Dreiser effectively shows that lack of education religiously stringent home environment and pangs of poverty throughout his childhood had charted out a

gloomy fate for Clyde who heads towards the death bed and is executed at the prime of youth In his works Dreiser often uses animal metaphors and similes to effect his point that human beings are no different from animals for their lack of free will and are prey to circumstances Though at the face value the school of naturalism seems gloomy dark and negative it does offer optimism and hope Naturalists believe on evolution and hence human beings can improve themselves and can learn to overcome beastly nature In the due process of evolution they can learn to live by reason instead of being ruled by instincts Thus human beings have the potential to achieve a similar ideal world as envisioned by spiritualism Works inspired by naturalism also impart a guiding lesson to the society that the society and its stake holders are responsible for existing social ills evils In the case of the tragic hero it was the social structure that denied access to education and better opportunities for poor youths to embrace a good life
