un domaine particulier qu'il s'agisse du droit des Nations unies des droits de la personne du droit de la mer du droit international humanitaire ou encore du droit économique international C'est pourquoi il paraît particulièrement important de disposer d'une méthode qui permette d'accueillir de manière à triser et d'utiliser de nouvelles connaissances. Pourtant aucun ouvrage de langue française n'a jusqu'ici été publié en méthodologie du droit international. Ce texte a pour ambition de combler cette lacune : il a été conçu à partir du cours de méthodologie de la recherche en droit international dispensé à l'Université libre de Bruxelles depuis 1997. Après avoir mis l'accent sur la diversité des approches méthodologiques en les mettant en lien avec les options théoriques qui les sous-tendent, l'ouvrage comprend un chapitre centré sur la construction scientifique d'un sujet à l'expérience montrant que les difficultés d'une tude sont souvent dues à une conceptualisation préalable insuffisante. Sont ensuite exposés des problèmes méthodologiques plus spécifiques relatifs aux sources du droit international, avec un accent particulier sur la coutume ainsi qu'à l'interprétation et l'application de ce droit. Un dernier chapitre plus classique reprend quelques conseils relatifs à la rédaction d'un travail écrit.

**Droit international public : Les sujets de droit** Charles Rousseau, 1970  
Droit international public Charles Rousseau v. 1. The Roots of International Law / Les fondements du droit international, 2013-11-29. This collection of essays gathers contributions from leading international lawyers from different countries, generations and angles with the aim of highlighting the multifaceted history of international law. This volume questions and analyses the origins and foundations of the international legal system. A particular attention is devoted to Hugo Grotius as one of the founding fathers of the law of nations. Several contributions further question the positivist tradition initiated by Vattel and endorsed by scholars of the 19th Century. This immersion in the intellectual origins of international law is enriched by an inquiry into the practice of the law of nations including its main patterns and changing evolution as well as the role of non-western traditions and the impact of colonization. Le présent ouvrage réunit les contributions de juristes internationaux reconnus en vue de clarifier les multiples facettes de l'histoire du droit international public. L'ouvrage analyse et questionne les origines et les fondements de l'ordre juridique international. Une attention toute particulière est donnée à Hugo Grotius, l'un des premiers fondateurs du droit international. D'autres contributions questionnent également la tradition positiviste initiée par Vattel et confortée par la doctrine du 19<sup>e</sup> siècle. Cette immersion dans les origines doctrinales du système juridique international est enrichie par la tude de la pratique du droit international public son évolution ainsi que le rôle des traditions non occidentales et l'impact de la colonisation.
