Dromkeen A Journey Into Childrens Literature:

Dromkeen, a Journey Into Children's Literature Jeffrey Prentice, 1985 *Books in the Life of a Child* Maurice Saxby, 1997-10-15 *Books in the Life of a Child* explores the value of books and reading in the stimulation of children's imagination and their fundamental importance in the development of language and true literacy. It examines not only the vast range of children's books available but also how to introduce young people to the joys of reading in the home, the school and in the community. The book has been written as a resource for all adults especially teachers, student teachers, librarians and parents and those who care about the value of literature for children. It is a comprehensive and critical guide with chapters on the history of children's literature and an analysis of its many forms and genres from poetry, fairytale, myth, legend and fantasy through realistic and historical fiction to humour, pulp fiction and information books. **The Art of Children's Picture Books** Sylvia S. Marantz, Kenneth A. Marantz, 2014-04-23 First Published in 1995 Routledge is an imprint of Taylor Francis, an information company. **Handbook of Research on Children's and Young Adult Literature** Shelby Wolf, Karen Coats, Patricia Enciso, Christine Jenkins, 2011-04-27 This landmark volume is the first to bring together leading scholarship on children's and young adult literature from three intersecting disciplines: Education, English and Library and Information Science. Distinguished by its multidisciplinary approach, it describes and analyzes the different aspects of literary reading texts and contexts to illuminate how the book is transformed within and across different academic figurations of reading and interpreting children's literature. Part one considers perspectives on readers and reading literature in home, school, library and community settings. Part two introduces analytic frames for studying young adult novels, picturebooks, indigenous literature, graphic novels and other genres. Chapters include commentary on literary experiences and creative production from renowned authors and illustrators. Part three focuses on the social contexts of literary study with chapters on censorship, awards, marketing and literary museums. The singular contribution of this Handbook is to lay the groundwork for colleagues across disciplines to redraw the map of their separately figured worlds, thus to enlarge the scope of scholarship and dialogue as well as push ahead into uncharted territory. *Children's Literature Abstracts*, 1999 *Children's Literature Research* Andreas Bode, 1991 **Australian National Bibliography**, 1978 **History of the Book in Australia Volume 3** Craig Munro, 2006-07 This new volume in UQP's History of the Book in Australia series explores Australian book production and consumption from 1946 to the present day. In the immediate postwar era, most books were imported into a colonial market dominated by British publishers. *Paper Empires* traces this fascinating and volatile half century using wide-ranging research, oral history and memoir to explore the worlds of book publishing, selling and reading. After 1945, Australian publishing went from a handful of fledgling businesses to the billion-dollar industry of today, with thousands of new titles each year and a vast array of imported books. Publishing's postwar expansion began with the baby boom and the increased demand for school texts, with independent houses blossoming during the 1960s and 70s, followed by the current era dominated by global

conglomerates All aspects of print culture are explored from authorship and editing to bookselling libraries and reading habits in the context of today's rapidly changing publishing landscape with its many technological challenges A wide range of expert contributors including book trade practitioners have produced this lively and indispensable account of our vital cultural industry Paper Empires Craig Munro, Robyn Sheahan-Bright, 2010-07 This new volume in UQP's History of the Book in Australia series explores Australian book production and consumption from 1946 to the present day In the immediate postwar era most books were imported into a colonial market dominated by British publishers Paper Empires traces this fascinating and volatile half century using wide ranging research **Children's Literature Association Quarterly**, 1993
