*The Drowned World* J. G. Ballard, 1981      Worlds Apart Carl Darryl Malmgren, 1991-07-22 Malmgren succeeds in formulating a typology of science fiction that will become a standard reference for some years to come Choice the most intelligently organized and effectively argued general study of SF that I have ever read Rob Latham SFRA Review required reading for its evenhanded overview of so much of the previous critical theoretical material devoted to science fiction American Book Review *Worlds Apart* provides a comprehensive theoretical model for science fiction by examining the worlds of science fiction and the discourse which inscribes them Malmgren identifies the basic science fiction types including alien encounters alternate societies and worlds and fantasy and examines the role of the reader in concretizing and interpreting these science fiction worlds      *The Empire's of J. G. Ballard* David Ian Paddy, 2015-08-25 J G Ballard once declared that the most truly alien planet is Earth and in his science fiction he abandoned the traditional imagery of rocket ships traveling to distant galaxies to address the otherworldliness of this world *The Empires of J G Ballard* is the first extensive study of Ballard's critical vision of nation and empire of the political geography of this planet Paddy examines how Ballard's self-perceived status as an outsider and exile the Sheppertonian from Shanghai generated an outlook that celebrated worldliness and condemned parochialism This book brings to light how Ballard wrestled with notions of national identity and speculated upon the social and psychological implications of the post war transformation of older models of empire into new imperialisms of consumerism and globalization Presenting analyses of Ballard's full body of work with its tales of reverse colonization psychological imperialism the savagery of civilization estranged Englishmen abroad and at home and multinational communities built on crime *The Empires of J G Ballard* offers a fresh perspective on the fiction of J G Ballard *The Empires of J G Ballard An Imagined Geography* offers a sustained and highly convincing analysis of the imperial and post imperial histories and networks that shape and energise Ballard's fictional and non-fictional writings To what extent can Ballard be considered an international writer What happens to our understanding of his post war science fictions when they are opened up to the language and logics of post colonialism And what creative and critical roles do the spectres of empire play in Ballard's visions of modernity Paddy follows these and other fascinating lines of enquiry in a study that is not only essential reading for Ballard students and scholars but for anyone interested in the intersections of modern and contemporary literature history and politics Jeanette Baxter Anglia Ruskin University Shanghai made my father Arriving in England after WW2 he was a person of the world who'd witnessed extremes of human experience and remained the outsider observing life from his home in Shepperton 1930s Shanghai Paris of the East was a mix of international sophistication and violence unfettered capitalism and acute poverty American cars martinis and Coca Cola a place marked by death and war It had a profound influence on my father and his imagination Dr Paddy's fascinating book explores my father's fiction within an international context and offers a profound reading of a man who always kept his eyes and mind open to the world Fay

Ballard     *THE DROWNED WORLD. BY J.G. BALLARD.* J. G. Ballard,1968     **Lost in Space** Rob Kitchin,James Kneale,2005-12-23 Science fiction one of the most popular literary cinematic and televisual genres has received increasing academic attention in recent years For many theorists science fiction opens up a space in which the here and now can be made strange or remade where virtual reality and cyborg are no longer gimmicks or predictions but new spaces and subjects Lost in space brings together an international collection of authors to explore the diverse geographies of spaceexploring imagination nature scale geopolitics modernity time identity the body power relations and the representation of space The essays explore the writings of a broad selection of writers including J G Ballard Frank Herbert Marge Piercy Kim Stanley Robinson Mary Shelley and Neal Stephenson and films from Bladerunner to Dark City The Fly The Invisible Man and Metropolis     *The Noatic Crossing* David R. Brown,2019-02-19 Creationism versus evolution As persistent as it is tiring this war has torn families and even nations apart The passions driving these camps to battle have been violent virulent and sadly completely wasted Scientists have examined this world for evidence to assert their theory while creationists have believed the Bible speaks of this same world This is an error that caused a war that needn t have ever been The account of Noah speaks to another world in another time Basked in the shadow of an ultradense gravity Noah s world died in the crib while this one rolled through a billion years or more Here nonhuman life crawled through stages as plates shifted the world we now know congealed into the stage for Yeshua s master play As Noah built his ark in the last few years of his world he prepared for a journey that he could not have conceived one in which Yahweh would not only save him from an apocalypse but through which He would transport Noah to another world altogether Thus The Noatic Crossing the event through which the godly line of the Messiah was comported from afar to our world This treatise examines the lattice of facts available through scientific review and repositis the lens of the Scripture to theorize the extraterrestrial nature of Noah and indeed of human life itself Where once science and religion dueled to the death here instead they will form an alliance to heal the past and to illuminate the present     Impossibility Fiction ,2023-12-18 Impossibility fiction is an intergenre that has recently been the resort of many writers searching for new ways of understanding and expressing the real world of the imagination making use of fantasy alternative history and science fiction Coping with ideas that are both impossible and realistically constructed is the ultimate contemporary challenge of our technology The chapters of this book move towards establishing appropriate readings that allow contemporary readers to negotiate unreality a skill that the end of the millennium is making inevitably necessary Such strategies have long been the preserve of literary and cultural study and here a number of well regarded scholars and some new to the field make their contribution to an area that has become increasingly important in recent years From Mary Shelley to Philip K Dick Iain M Banks to J G Ballard taking in African American science fiction Jurassic Park and Kurt Vonnegut and exploring issues of alternative history and ideology feminism the holocaust characterisation and impossible geography this collection is an important source book for all those interested in the

literature culture and philosophy of realistic impossible worlds

### **The Palgrave Handbook of European Migration in**

**Literature and Culture** Corina Stan,Charlotte Sussman,2023-11-20 The Palgrave Handbook of European Migration in Literature and Culture engages with migration to within and from Europe foregrounding migration through the lenses of historical migratory movement and flows associated with colonialism and postcolonialism With essays on literature film drama graphic novels and more the book addresses migration and media hostile environments migration and language migration and literary experiment migration as palimpsest and figurations of the migrant Each section is introduced by one of the handbook s contributing editors and interviews with writers and film directors are integrated throughout the volume The essays collected in the volume move beyond the discourse of the refugee crisis to trace the historical roots of the current migration situation through colonialism and decolonization

### **Technology, Anthropology, and Dimensions of**

**Responsibility** Birgit Beck,Michael Kühler,2020-02-19 With great power comes great responsibility In today s world with our growing technological power and the knowledge about its impact we are considered to be responsible for many instances that not long ago would have been deemed a matter of fate At the same time the looming options of e g genome editing or neuroprosthetics threaten traditional notions of responsibility if no longer the person but the technology involved is deemed to be responsible for a specific behaviour The growing ethical debate on the expansion of human responsibility e g when it comes to human machine interaction ambient intelligence or reproductive technologies thus intertwines with the challenge to formulate an appropriate understanding of the concept of personal responsibility and our respective anthropological self understanding in today s technological world The volume brings together both perspectives and aims at illuminating crucial dimensions of responsibility in light of technological innovation and our self understanding as responsible beings

*A Poetic History of the Oceans* Søren Frank,2022-07-18 What is the ocean s role in human and planetary history How have writers sailors painters scientists historians and philosophers from across time and space poetically envisioned the oceans and depicted human entanglements with the sea In order to answer these questions S ren Frank covers an impressive range of material in *A Poetic History of the Oceans* Greek Roman and Biblical texts an Icelandic Saga Shakespearean drama Jens Munk s logbook 19th century writers such as James Fenimore Cooper Herman Melville Jules Michelet Victor Hugo Jules Verne Jonas Lie and Joseph Conrad as well as their 20th and 21st century heirs like J G Ballard Jens Bj rneboe and Siri Ranva Hjelm Jacobsen *A Poetic History of the Oceans* promotes what Frank labels an amphibian comparative literature and mobilises recent theoretical concepts and methodological developments in Blue Humanities Blue Ecology and New Materialism to shed new light on well known texts and introduce readers to important but lesser known Scandinavian literary engagements with the sea

### **J.G. Ballard's Surrealist Imagination**

Jeannette Baxter,2016-12-05 Making the case that J G Ballard s fictional and non fictional writings must be read within the framework of Surrealism Jeannette Baxter argues for a radical revisioning of Ballard that takes account of the political and ethical dimensions of his work Ballard s appropriation of

diverse Surrealist aesthetic forms and political writings Baxter suggests are mobilised to contest official narratives of postwar history and culture and offer a series of counter historical and counter cultural critiques Thus Ballard s work must be understood as an exercise in Surrealist historiography that is politically and ethically engaged Placing Ballard s illustrated texts within this critical framework permits Baxter to explore the effects of photographs drawings and other visual symbols on the reading experience and the production of meaning Ballard s textual spectacles raise a variety of questions about the shifting role of the reader and the function of the written text within a predominantly visual culture while acknowledging the visual contexts of Ballard s Surrealist writings allows a very different historical picture of the author and his work to emerge

**Water Stories in the Anthropocene** Angelo Monaco,2024-10-21 Water Stories in the Anthropocene explores how climate change has emerged as a major theme in our daily lives as it poses a myriad of economic scientific political and cultural challenges in the age of the Anthropocene In all its forms and manifestations climate change is primarily a water crisis Water scarcity droughts floods deluge rising sea levels ice melting wetlands loss and sea pollution are among the main threats posed by climate change wreaking havoc on both human and nonhuman forms of life This book engages with instances of extreme events related to water droughts floods deluges and the impact of climate change on some waterbodies seas and wetlands in contemporary Anglophone novels By taking into account a corpus of novels ranging from the various areas of the Anglophone world and thus shuttling between the Global North and the Global South the book reads these novels as water stories This volume pays attention to the pervasive presence of water in all aspects of our lives thus showing how narratives can offer insightful accounts of the present water crisis Alternating between an econarratological perspective reflections on the Anthropocene and the human nonhuman imbrications within the blue humanities the book contributes significantly to the considerations of the imaginative possibilities of these water stories showing how narratives can offer insightful accounts of the present water crisis

**Eco-Aesthetics** Malcolm Miles,2014-05-08 By moving beyond traditional aesthetic categories beauty the sublime the religious Eco Aesthetics takes an inter disciplinary approach bridging the arts humanities and social sciences and explores what aesthetics might mean in the 21st century It is one in a series of new radical aesthetics promoting debate confronting convention and formulating alternative ways of thinking about art practice There is no doubt that the social and environmental spheres are interconnected but can art and artists really make a difference to the global environmental crisis Can art practice meaningfully contribute to the development of sustainable lifestyles Malcolm Miles explores the strands of eco art eco aesthetics and contemporary aesthetic theories offering timely critiques of consumerism and globalisation and ultimately offers a possible formulation of an engaged eco aesthetic for the early 21st century

*The Psychological Fictions of J.G. Ballard* Samuel Francis,2013-06-20 J G Ballard self professedly devoured the work of Freud as a teenager and entertained early thoughts of becoming a psychiatrist he opened his novel writing career with a manifesto declaring his wish to write a science fiction exploring not outer but inner space and declaring

the need for contemporary fiction to be viewed as a branch of neurology He also apparently welcomed a reader's report on Crash 1973 condemning him as beyond psychiatric help as confirming his achievement of total artistic success Samuel Francis investigates Ballard's engagement with psychology and the psychological in his fiction tracing the influence of key figures including Sigmund Freud C G Jung and R D Laing and placing his work in the context of the wider fields of psychology and psychiatry While the psychological preoccupations of his writing are very clear including his use of concepts such as the unconscious psychopathology deviance obsession abnormal psychology and schizophrenia this is the first book to offer a detailed analysis of this key conceptual and historical context for his fiction      *Spatial Politics in Contemporary London Literature* Laura Colombino, 2013-06-19 This book analyses the spatial politics of a range of British novelists writing on London since the 1950s emphasizing spatial representation as an embodied practice at the point where the architectural landscape and the body enter into relation with each other Colombino visits the city in connection with its boundaries abstract spaces and natural microcosms as they stand in for all the conflicting realms of identity its interstices and ruins are seen as inhabited by bodies that reproduce internally the external conditions of political and social struggle The study brings into focus the fiction in which London provides not a residual interest but a strong psychic phenomenological grounding and where the awareness of the physical reality of buildings and landscape conditions shape the concept of the subject traversing this space Authors such as J G Ballard Geoff Dyer Michael Moorcock Peter Ackroyd Iain Sinclair Geoff Ryman Tom McCarthy Michael Bracewell and Zadie Smith are considered in order to map the relationship of body architecture and spatial politics in contemporary creative prose on the city Through readings that are consistently informed by recent developments in urban studies and reflections formulated by architects sociologists anthropologists and art critics this book offers a substantial contribution to the burgeoning field of literary urban studies      *The Science Fiction Handbook* Nick Hubble, Aris Mousoutzanis, 2013-11-28 As we move through the 21st century the importance of science fiction to the study of English Literature is becoming increasingly apparent The Science Fiction Handbook provides a comprehensive guide to the genre and how to study it for students new to the field In particular it provides detailed entries on major writers in the SF field who might be encountered on university level English Literature courses ranging from H G Wells and Philip K Dick to Doris Lessing and Geoff Ryman Other features include an historical timeline sections on key writers critics and critical terms and case studies of both literary and critical works In the later sections of the book the changing nature of the science fiction canon and its growing role in relation to the wider categories of English Literature are discussed in depth introducing the reader to the latest critical thinking on the field      *Environmental Humanities and the Uncanny* Rod Giblett, 2019-04-12 Sigmund Freud's essay The Uncanny is celebrating a century since publication It is arguably his greatest and most fruitful contribution to the study of culture and the environment Environmental Humanities and the Uncanny brings into the open neglected aspects of the uncanny in this famous essay in its centenary year and in the work of those before and after him

such as Friedrich Schelling Walter Benjamin E T A Hoffmann and Bram Stoker This book does so by focussing on religion especially at a time and for a world in which some sectors of the monotheisms are in aggressive and sometimes violent contention against those of other monotheisms and even against other sectors within their own monotheism The chapter on Schelling s uncanny argues that monotheisms come out of polytheism and makes the plea for polytheism central to the whole book It enables rethinking the relationships between mythology and monotheistic and polytheistic religions in a culturally and politically liberatory and progressive way Succeeding chapters consider the uncanny cyborg the uncanny and the fictional and the uncanny and the Commonwealth concluding with a chapter on Taoism as a polytheistic religion Building on the author s previous work in Environmental Humanities and Theologies in bringing together theories of religion and the environment this book will be of great interest to students and scholars of the environmental humanities ecocultural studies and religion

**World's End** Charlie Gere,2022-03-29 A memoir and cultural history the World s End a West London area once home to bohemian artists and punk rock and now an outpost of neoliberalism Charlie Gere s account of growing up in the World s End area of West London during the Cold War combines local history cultural history memoir and a strong sense of the apocalyptic Once a rundown part of Chelsea at the wrong end of the King s Road the World s End has long been a place for bohemian writers and artists including Turner Whistler Beckett Bacon and Bacon s muse Henrietta Moraes all of whom evinced an appropriate apocalyptic sensibility After World War II in which the area suffered severe bombing it became a center of the counterculture that emerged from what Jeff Nuttall called Bomb Culture formed by the threat of nuclear annihilation The famous boutique Granny Takes a Trip opened there in 1966 joined later on by Hung On You Puss Weber s Flying Dragon Tea Room and the commune Gandalf s Garden The area also featured trepanning aristocrats and pet lions among other eccentricities In the 1970s the World s End was the center of punk rock Gere s parents arrived as part of a wave of gentrification and Gere born and brought up there witnessed its social and cultural evolution As an adolescent he was traumatized by the prospect of nuclear war He has lived long enough to see the World s End now bearing the marks of out of control neoliberalism and its grotesque accompanying inequality But this too shall pass as worlds end Atlantis Ignatius
