describing objectives and activities from outlining your evaluation plan to creating a workable project budget from how reviewers function to what they are looking for in proposal sections you ll find the help you need to maximize every aspect of your proposal The tips to help you create winning sections include how to assess a program announcement and ensure that you address each requirement condense your entire proposal into a brief but compelling abstract determine what appendices to include and in what form for maximum impact adequately describe project dissemination and continuation plans use technology including desktop publishing graphics color and spreadsheets for budget development to enhance your proposals and structure your proposal to increase your chance of winning Expanded to include more grant writing help than ever the book also includes easy to use flowcharts and helpful hints that give you expert tips and proven grant writing advice With this book you ll have the tools you need to craft proposals that win 107-2 Hearing: Effectiveness of The National Youth Anti-Drug Media Campaign, June 19, 2002, *, 2002 Investing in Our Nation's Youth, 1999 Sequencing and Prediction of Adolescent Soft Drug Initiation: Systematic Review, Quantitative Investigation, and Dual Cross-Validation Rebecca J. Howell, 2010-06-03 In providing a comprehensive investigation of alcohol cigarette and marijuana initiation among

adolescents the overarching goals of the research were to build upon extant findings address important gaps found in the literature and contribute to the prevention science knowledge base A four fold purpose founded the study 1 provide a systematic review of the soft drug initiation literature 2 test a modified version of Kandel s 2002 drug sequencing hypothesis 3 determine if predictors of soft drug initiation differ in kind or saliency by biological age and drug type and 4 examine age and drug specific determinants of the timing at which soft drug initiation occurs Supplemental attention also was directed at evaluating the utility of Petraitis et al s 1995 distal proximal mediation hypothesis Through the quantitative component of the research nine hypotheses were tested Cross sectional data were derived from a rural sample of 6th 9th and 12th grade students who completed the 2004 Primary Prevention Awareness Attitude and Use Survey PPAAUS All of the hypotheses obtained some degree of support more support was yielded for the specific risk factor hypothesis than the common factor model and convincing evidence was obtained for Kandel s drug sequencing hypothesis and Petraitis et al s distal proximal mediation hypothesis The findings also supported the bulk of the directional hypotheses and several of the direct and indirect effects propositions put forth in social learning theory the social development model and the theory of planned behavior In contrast the results called into question some of the direct effects articulated in Hirschi s original statement of social control and underscored some possible limits of the social development model In an effort to gauge the validity of the findings a dual cross validation scheme was employed The systematic review cross validation involved comparing the quantitative findings for two major hypotheses to those yielded from 36 primary studies examined in the systematic review Through a further quantitative cross validation the findings for the major and supplemental hypotheses were compared to those derived from a sample of 6th 9th and 12th grade students who completed the 2001 PPAAUS On balance a relatively strong degree of convergence was obtained This confluence served to bolster the reliability and validity of the results Policy and programmatic implications also were indicated
