Congress. House. Committee on Public Works and Transportation. Subcommittee on Investigations and Oversight,1983 *Sharks and Their Relatives II* Jeffrey C. Carrier,John A. Musick,Michael R. Heithaus,2010-03-09 Since the award winning first volume *The Biology of Sharks and Their Relatives* published in 2004 the field has witnessed tremendous developments in research rapid advances in technology and the emergence of new investigators beginning to explore issues of biodiversity distribution physiology and ecology in ways that eluded more traditional Tracks on the Trail Dana Gorzelany-Mostak,2023-10-23 From Bill Clinton playing his saxophone on The Arsenio Hall Show to Barack Obama referencing Jay Z s song *Dirt Off Your Shoulder* politicians have used music not only to construct their personal presidential identities but to create the broader identity of the American presidency Through music

candidates can appear relatable show cultural competency communicate values and ideas or connect with a specific constituency On a less explicit level episodes such as Clinton s sax playing and Obama s shoulder brush operate as aural and visual articulations of race and racial identity But why do candidates choose to engage with race in this manner And why do supporters and detractors on YouTube and the Twittersphere similarly engage with race when they create music videos or remixes in homage to their favorite candidates With Barack Obama Ben Carson Kamala Harris and Donald Trump as case studies Tracks on the Trail Popular Music Race and the US Presidency sheds light on the factors that motivate candidates and constituents alike to articulate race through music on the campaign trail and shows how the racialization of sound intersects with other markers of difference and ultimately shapes the public discourse surrounding candidates popular music and the meanings attached to race in the 21st century Gorzelany Mostak explores musical engagement broadly including official music in the form of candidate playlists and launch event setlists as well as unofficial music in the form of newly composed campaign songs mashups parodies and remixes

Collective Trauma, Collective Healing Jack

Saul, 2022-01-31 Collective Trauma Collective Healing is a guide for mental health professionals working in response to large scale political violence or natural disaster It provides a framework that practitioners can use to develop their own community based collective approach to treating trauma and providing clinical services that are both culturally and contextually appropriate The classic edition includes a new preface from the author reflecting on changes to the field and the world since the book s initial publication The book draws on experience working with survivors their families and communities in the Holocaust post war Kosovo the Liberian civil wars and post 9 11 Lower Manhattan It tracks the development of community programs and projects based on a family and community resilience approach including those that enhance the collective capacities for narration and public conversation Clinicians and community practitioners will come away from Collective Trauma Collective Healing with a solid understanding of new roles they may play in disasters roles that encourage them to recognize and enhance the resilience and coping skills in families organizations and the community at large

Shark Attacks Blake Chapman, 2017-11 Humans spend more time in or on the water than ever before We love the beach But for many people getting in the water provokes a moment s hesitation Shark attacks are big news events and although the risk of shark attack on humans is incredibly low the fact remains that human lives are lost to sharks every year Shark Attacks explores the tension between risk to humans and the need to conserve sharks and protect the important ecological roles they play in our marine environments Marine biologist Blake Chapman presents scientific information about shark biology movement patterns and feeding behaviour She discusses the role of fear in the way we think about sharks and the influence of the media on public perceptions Moving first hand accounts describe the deep and polarising psychological impacts of shark attacks from a range of perspectives This book is an education in thinking through these emotive events and will help readers to navigate the controversial issues around mitigating shark attacks while conserving the sharks themselves

Fear of a Hip-Hop Planet D. Marvin Jones, 2013-04-01 Is Gangsta Rap just black noise Or does it play the same role for urban youth that CNN plays in mainstream America This provocative set of essays tells us how Gangsta Rap is a creative report about an urban crisis our new American dilemma and why we need to listen Increasingly police politicians and late night talk show hosts portray today s inner cities as violent crime ridden war zones The same moral panic that once focused on blacks in general has now been refocused on urban spaces and the black men who live there especially those wearing saggy pants and hoodies The media always spotlights the crime and violence but rarely gives airtime to the conditions that produced these problems The dominant narrative holds that the cause of the violence is the pathology of ghetto culture Hip hop music is at the center of this conversation When 16 year old Chicago youth Derrion Albert was brutally killed by gang members many blamed rap music Thus hip hop music has been demonized not merely as black noise but as a root cause of crime and violence Fear of a Hip Hop Planet America s New Dilemma explores and demystifies the politics in which the gulf between the inner city and suburbia have come to signify not only a socio economic dividing line but a new socio cultural divide as well

Hunter or Gatherer Ursula Brightenstar, AI, 2025-01-26 Hunter or Gatherer The Evolutionary Strategies of Survival explores how species thrive through hunting or gathering challenging assumptions about which strategy ensures survival The book argues that neither approach is universally superior each reflects precise adaptations to ecological niches Anchored in evolutionary biology and ecological principles it examines trade offs between energy expenditure and nutritional gains the ripple effects of these behaviors on ecosystems and the surprising interdependence of species From wolves high risk predation to squirrels methodical foraging the book reveals how environmental stability or volatility shapes survival tactics emphasizing that gatherers like seed dispersing toucans can influence ecosystems as profoundly as apex predators Structured in three sections the book first unpacks anatomical adaptations such as carnassial teeth in big cats versus specialized digestion in herbivores It then presents global case studies African wild dogs cooperative hunts leafcutter ants fungal farms and GPS data contrasting Arctic foxes energy intensive roaming with Galapagos tortoises efficient grazing The final chapters address climate change s uneven impact on hunters and gatherers linking foraging behaviors to conservation challenges Unique research highlights plant communication where flora recruit ants as bodyguards and robotics engineers drawing inspiration from army ants swarm tactics Blending narrative storytelling with scientific rigor Hunter or Gatherer reframes fitness in nature showcasing niche specialization over brute dominance Its interdisciplinary lens bridging anthropology climate science and robotics offers practical insights for conservation and sustainable practices By illuminating the delicate balance of ecosystems the book underscores that biodiversity s survival hinges on understanding these strategies making it essential reading for anyone invested in preserving the natural world
