Shakespeares Sonia Massai, 2007-05-07 Drawing on debates around the global local dimensions of cultural production an international team of contributors explore the appropriation of Shakespeare's plays in film and performance around the world In particular the book examines the ways in which adapters and directors have put Shakespeare into dialogue with local traditions and contexts The contributors look in turn at local Shakespeares for local national and international audiences covering a range of English and foreign appropriations that challenge geographical and cultural oppositions between centre and periphery and big time and small time Shakespeares Responding to a surge of critical interest in the poetics and politics of appropriation World Wide Shakespeares is a valuable resource for those interested in the afterlife of Shakespeare in film and performance globally **Bibliographie der Deutschen Bibliothek**, 1989 **Subject Catalog** Library of Congress, *The Feeling of the Form* Joseph R. Metz, 2025-11-15 The Feeling of the Form explores the concept of Einfuehlung the projection of human feelings and life into inanimate forms developed by German aesthetic theorists in the late nineteenth century The word would be translated into English as empathy and migrate in meaning from the aesthetic to the interpersonal sphere Combining close analysis and cultural para history The Feeling of the Form reads literary texts by Georg Buechner Adalbert Stifter and Rainer Maria Rilke alongside philosophical texts by Robert Vischer Vernon Lee and Theodor Lipps to uncover the often uncanny intersections of aesthetic and interpersonal empathy Traveling both backward and forward in time from the 1873 invention of Einfuehlung Joseph R Metz traces the diverse and multidirectional exchanges among subjects and objects feelings and forms and selves and others that together yield an expanded understanding of Einfuehlung empathy and the connections between them In its surprising juxtapositions The Feeling of the Form also shows how nineteenth and early twentieth century texts prefigure a wide array of later thought including affect theory other minds artificial intelligence object oriented ontology and cinema and video game aesthetics *The English Catalogue of Books* Sampson Low, 1966 Vols for 1898 1968 include a directory of publishers **Paperbound Books in Print**, 1982 *Übersetzte Literatur in deutschsprachigen Anthologien: Teilbd. Rather the concept could show how power and norms function This volume would be of interest to scholars and students of philosophy and the social sciences who wish to investigate the social applications of the works of Martin Heidegger
