Astrology The Star Connection:

The Star Connection Philip S. Berg, Rav Berg, 1986-01-01 This compelling book pours a clear light onto the concealed reasons why certain events appear in our lives and the world at large Exploring the ancient principles of Kabbalistic Astrology The Star Connection reveals that each of us is born into an astrological environment best suited for the completion of the correction that we must make in our lives

MUNDANE STELLAR ASTROLOGY: The ancient science of Hermes on the secret connections between the stars and their reflections on earthly beings and events GIACOMO

ALBANO, 2021-08-25 The techniques of mundane astrology inherited from tradition are not the most suitable for explaining and predicting events as in reality they only capture the last links in the chain of celestial causes that underlie them In fact the primary causes of all events always and only reside in the Eighth Sphere that is in the sky of the constellations and fixed stars In this book the Stellar Astrology techniques are developed and applied to the real prediction of world events but also to natal charts Heaven and the stars that populate it are living beings The various parts of the starry sky constellations parts of constellations asterisms and single stars are not isolated but communicate with each other and therefore must be conceived as parts of a community similarly to the relations between men who live on this earth Indeed our communities and our earthly bonds are nothing but the reflection and manifestation of these celestial bonds And just as happens between men and between specific groups of men between some of these parts of the sky there are privileged relationships This book explains which are the astronomical and astrological factors that highlight these ties of kinship thus also indicating the existence of similar relations existing between the things of the world linked to those stars It is a real science based on rigorous criteria and in this book it is illustrated by providing the student with a general method that he can then apply to any person thing or event he intends to study in depth It will be seen how the identification of these stellar links is also essential for correctly interpreting a birth chart Only in this way astrology becomes what it should always be that is the sapiential matter par excellence as the only one capable of explaining and demonstrating the true nature and origin of earthly reality
