World War II Home Front DBA Social Studies School Service,2001 *The Echo of War* Siân Nicholas,1996 Finally it considers how through its contribution to the reconstruction debate the BBC consolidated not only a lasting image of the People s War but a compelling vision of the People s Peace *Nigeria and World War II* Chima J. Korieh,2020-03-26 A sophisticated history of colonial interactions in Nigeria during World War II drawing on hitherto unexplored archival resources *Distribia* Ali Cheaib,2018-03-05 Humanity s primary defining feature is our ability to design systems but at the same time such hallmark is our downfall because our systems have the potential for enslaving and destroying the human race A system is a good servant but an evil master Not realizing the dangers that lurk within systems we foolishly enslaved humanity under ghoulish concepts In this book we tell the story of a cruel and oppressive system called tribalism A master slave social order which endorsed two classes in society one endured by abusing and enslaving the other for thousands of years until the inevitable rise of distribia Travel with us on a journey in time to a world free of tribalism To a society free of representation delegation intermediation centralization and zoning to discover the beautiful way of life of distribia s fascinating peer to peer society **Hollywood or History?** Scott L. Roberts,Charles J. Elfer,2024-10-01 In response to the limitations associated with teaching through film we sought to develop practical lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms One of the more interesting sources of visual media many authors in the previous volumes elected to use as the focus of their lesson plans were cartoons These lesson plans have been some of the more popular in the series and are often easier to adapt for a variety of grade levels In conducting research for this volume we learned that cartoons are an often used media sources in the classroom They have similar strengths and weaknesses in not only the teaching of history but other social studies disciplines as well While in many cases their intended audience is younger children people of all ages enjoy cartoons This makes them useful for teaching students at all grade levels as well as adults as there will be immediate buy in if used as a source of analysis for inquiry based lessons As with live action film we believe cartoons can also serve as a powerful tool in the social studies classroom and if appropriately utilized can foster critical thinking and civic mindedness The College Career and Civic Life C3 framework adopted by the National Council for the Social Studies in 2013 represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking reading and writing The C3 is comprehensive and ambitious Moreover we believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute Our hope is that the present volume might play a small role in the larger Hollywood or History project of supporting practitioners specifically teachers of preK 12 social studies disciplines by offering a collection of 19 classroom ready lesson designed to foster social studies inquiry through the careful use of selected cartoons

Beyond Rosie the Riveter Donna B. Knaff, 2014-01-10 The iconic bicep flexing poster image of Rosie the Riveter has long conveyed the impression that women were welcomed into the World War II work force and admired for helping free a man to fight Donna Knaff however shows that Rosie only revealed part of the reality and that women depicted in other World War II visual art both in the private sector and the military reflected decidedly mixed feelings about the status of women within American society *Beyond Rosie the Riveter* takes readers back to a time before television's dominance to the golden age of print art and its singular power over public opinion Focusing specifically on instances of female masculinity when women entered previously all male fields Knaff places these images within the context of popular discussions of gender roles and examines their historical cultural and textual contexts As Knaff reveals visual messages received by women through war posters magazine cartoons comic strips and ads may have acknowledged their importance to the war effort but also cautioned them against taking too many liberties or losing their femininity Her study examines the subtle and not so subtle cultural battles that played out in these popular images opening a new window on American women's experience Some images implicitly argued that women should maintain their femininity despite adopting masculinity for the war effort others dealt with society's deep seated fear that masculinized women might feminize men and many reflected the dilemma that a woman was both encouraged to express and suppress her sexuality so that she might be perceived as neither promiscuous nor lesbian From these cases Knaff draws a common theme while being outwardly empowered or celebrated for their wartime contributions women were kept in check by being held responsible for everything from distracting male co workers to compromising machinery with their long hair and jewelry Knaff also notes the subtle distinctions among the images government war posters targeted blue collar women New Yorker content was aimed at socialites Collier's addressed middle class women and Wonder Woman was geared to young girls Especially through its focus on visual arts Knaff's book gives us a new look at American society decades before the modern women's rights movement torn between wartime needs and antiquated gender roles It provides much needed nuance to a glossed over chapter in our history charting the difficult negotiations that granted and ultimately took back American women's wartime freedoms

World War II Propaganda David Welch, 2017-10-12 Shows in illuminating detail how the Allied and Axis forces used visual images and other propaganda material to sway public opinion during World War II Author David Welch provides a neatly organized primary resource that focuses on key themes associated with World War II propaganda Readers will not only be engrossed with a wide range of propaganda artifacts they will also receive a better and more nuanced understanding of the nature of this

propaganda and how it was disseminated in different cultural and political contexts This book reveals how leaders and spin doctors operating at behest of the state sought to shape popular attitudes both at home and overseas A comprehensive introductory essay sets out the principles of propaganda theory in World War II while the subsequent material provides examples of Allied and Axis generated propaganda and presents them in a readily accessible way that will help readers understand the context

The Great Flap of 1942 Mukund Padmanabhan, 2024-02-05 The Great Flap of 1942 is a narrative history of a neglected and scarcely known period between December 1941 and mid 1942 when all of India was caught in a state of panic This was largely a result of the British administration's mistaken belief that Japan was on the verge of launching a full fledged invasion It was a time when the Raj became unduly alarmed when the tongue of rumour wagged wildly about Japanese prowess and British weakness and when there was a huge and largely unmapped exodus of Indians and Europeans from both sides of the coastline to safer inland regions This book demonstrates quite astonishingly that the Raj cynically encouraged the exodus and contributed to the repeated cycles of rumour panic and flight It also reveals how the shadow of the Japanese threat influenced the course of nationalist politics altered British attitudes towards India and charted the course towards Independence The Great Flap of 1942 the title refers to an expression used by British bureaucrats in India traces a broad narrative arc starting with the Japanese attacks in South East Asia The assault on Malaya the conquest of Singapore the bombing and eventual occupation of Burma and the Japanese Navy's foray into the Indian Ocean are examined in the light of the tremendous impact they had on India

Persuading the People David Welch, 2016 During World War II the UK government created the Central Office of Information to act as the country's marketing and communications agency In these desperate times the Office produced steady streams of propaganda for the home front for the colonies and for dissemination through occupied countries In addition to patriotic material encouraging Britons to maintain a stiff upper lip thousands of postcards leaflets posters booklets and other promotional materials were dropped from aircraft over occupied countries in World War II In 2000 the master set of copies was deposited with the British Library making an enormous collection of great social and historical significance available to the public for the first time

Zo win je een propagandaoorlog Peter Pomerantsev, 2024-04-25 Het waanzinnige verhaal van de man die Hitler te slim af was Een geweldig verhaal dat niet actueeler had kunnen zijn The 19 best books of 2024 The Times De Tweede Wereldoorlog werd niet alleen op het slagveld maar ook in de media uitgevochten Beide fronten zetten propaganda in om de opvattingen van burgers te beïnvloeden Op dit strijdtoneel ging de Britse propagandist Thomas Sefton Delmer het gevecht aan met de Duitse oorlogsmacht Door een fictieel karakter Der Chef te creëren kon Sefton Delmer de Duitse militairen en burgers bereiken tijdens de Tweede Wereldoorlog Hij had een radioprogramma en hield speeches die in de Duitse straten en in huizen te horen waren Journalist en onderzoeker Peter Pomerantsev kwam deze bijzondere figuur op het spoor en ziet een duidelijke parallel met de oorlog tussen Rusland en Oekraïne Hitler en Poetin gebruiken beiden de leugen om hun doel te bereiken

Cold Warriors Duncan White, 2019-08-29 White handles hefty quantities of research effortlessly combining multiple biographies with a broader overview of the period His energetic anecdote laden prose will have you hooked all the way from Orwell to le Carr Sunday Times Books of the Year Cold Warriors reads like a thriller ambitious intelligent searching history The Times In this age of 24 hour news coverage where rallying cries are made on Twitter and wars are waged in cyberspace as much as on the ground the idea of a novel as a weapon that can wield any power feels almost preposterous The Cold War was a time when destruction was merely the press of a button away but when the real battle between East and West was over the minds and hearts of their people In this arena the pen really was mightier than the sword This is a gripping richly populated history of spies and journalists protest and propaganda idealism and betrayal And it is the story of how literature changed the course of the Cold War just as much as how Cold War would change the course of literature Using hitherto classified security files and new archival research White explores the ways in which authors were harnessed by both East and West to impose maximum damage on the opposition how writers played a pivotal role sometimes consciously often not in the conflict and how literature became something that was worth fighting and dying for With a cast that includes George Orwell Arthur Koestler Graham Greene Boris Pasternak Andrei Sinyavsky Mary McCarthy and John le Carr and taking the reader from Spain to America to England and to Russia this is narrative history at its most enthralling and most pertinent pertinent because even if on the face of it there is a huge difference between 140

characters and 100 000 words at the heart of both is the power of stories to change the fate of nations **Hollywood or History?** Sarah J. Kaka,2022-01-01 The rationale for the present text Hollywood or History An Inquiry Based Strategy for Using Film to Teach About Inequality and Inequity Throughout History stems from two main things First and foremost is the fact that the reviews of the first two volumes in the Hollywood or History series have been overwhelmingly positive especially as it pertains to the application of the strategy for practitioners Classroom utility and teacher practice have continued to be the primary objectives in developing the Hollywood or History strategy The second thing is that this most recent volume in the series takes it in a new direction rather than focusing on eras in history it focuses on the themes of inequity and inequality throughout history and how teachers can utilize the Hollywood or History strategy to tackle some of the more complicated content throughout history that many teachers tend to shy away from There is a firm belief that students connection to film along with teachers ability to use film in an effective manner will help alleviate some of the challenges of teaching challenging topics such as inequity and inequality in terms of gender race socioeconomic status and so much more The book provides 30 secondary lesson plans grades 6 12 that address nine different topics centered around inequity and inequality throughout history many of which connect students to the world we are living in today The intended audience for the book are teachers who teach social studies at the 6th 12th grade level both in the United States and other countries An additional audience will be college and university social studies history methods professors in the United States and worldwide **The World History Highway: A Guide to Internet Resources** Dennis A. Trinkle,Scott A.

Teaching German in Twentieth-century America
 David P. Benseler, Craig W. Nickisch, Cora Lee Nollendorfs, 2001 Teaching a foreign language and culture is always a challenge but it has been especially problematic to teach the German language and culture in the United States in the twentieth century The tradition of Germany s great poets and thinkers of the past has been joined by a starker legacy Through explorations of such topics as the world wars the Holocaust women in the language teaching profession Jewish contributions and technology s impact on scholarship this volume inspects the fascination and frustrating relationships of the two cultures as they interact through the teaching of German in American educational systems from small liberal arts colleges to large and famous universities This volume resulted from a conference Shaping Forces in American Germanics held in Madison Wisconsin in September 1996
