G Psacharopoulos

Agency And Organization Towards An Organizational Theory Of Society:

Agency and Organization Göran Ahrne, 1990 Social theory and organization theory often exist in mutual isolation social theory analyzes the individual actor and the grand social structure while organization theory focuses on the dynamics of business enterprises and effective organizational forms Drawing insights from both perspectives G um oran Ahrne explores agency individuals actions and organization within their social context From this fruitful approach emerges the outline of an organizational theory of society Working with a broad definition of organization not only capitalist enterprises but also nation states families and voluntary associations the author investigates the role of organizations in regulating the everyday life of the individual Equally he relates the organization to its context the social landscape made up of social and cultural phenomena as well as other organizations Both market competition and political action are analyzed as forms of interaction between organizational sectors Assessing the existing literature on the social theory of bureaucracy and organizations and pointing to new directions in long running debates on action and structure this book will command a wide readership among lecturers and students of social and organizational theory

Sociology of Organizations Antonio Lucas Marín, Organizations are one of the characteristic elements of more modern societies The complexity of social life and the difficulty of intended social objectives require that individuals should join their fellow men to try to achieve them It is not easy to understand ordinary life without making continuous references to organizations which act as extensions of man to reach certain difficult goals The study of organizations has been a significant part of the effort exerted by social sciences to rationalize social life in the Twentieth century it can be predicted that it will be increasingly important Factories companies and organizations have often been successive ways of organizing work from the beginning of industrialization up to our days We are ever more aware of the importance of organizations in our lives Sociology which paid attention to the phenomenon of factories from the very beginning has continued to be concerned about the study of organizations We will see here some aspects of that study

The Theory and Philosophy of Organizations John Hassard, Denis Pym, 1990 The contributors to this volume challenge popular assumptions about organizations in order to redirect the ways in which organizational research is conceived and executed

The Handbook of Community Practice Marie Weil, Michael S. Reisch, Mary L. Ohmer, 2013 Written by some of the most influential scholars in the field this Handbook covers community development organizing planning and social change as well as key issues fields of practice and global approaches

The Routledge Companion to Philosophy in Organization Studies Raza Mir, Hugh Willmott, Michelle Greenwood, 2015-11-06 The Routledge Companion to Philosophy in Organization Studies provides a wide ranging overview of the significance of philosophy in organizations The volume brings together a veritable who's who of scholars that are acclaimed international experts in their specialist subject within organizational studies and philosophy The contributions to this collection are grouped into three distinct sections Foundations exploring philosophical building blocks with which organizational researchers need to become familiar Theories

representing some of the dominant traditions in organizational studies and how they are dealt with philosophically Topics examining the issues themes and topics relevant to understanding how philosophy infuses organization studies Primarily aimed at students and academics associated with business schools and organizational research The Routledge Companion to Philosophy in Organization Studies is a valuable reference source for anyone engaged in this field *The Sociology of Organizations* Michael J Handel,2003 Michael Handel has assembled an authoritative and wide ranging collection of key articles in the organizations field and complements these papers with a terrific critical survey of the literature His introductory essays will benefit both students and researchers alike This collection is a real service to the field Walter W Powell Stanford University A unique reader and commentary with broad coverage of the classics combined with a healthy skepticism about received theories and an emphasis on the impact of organizations on society The lucid commentary brightens the field Charles Perrow Yale University For the first time a single volume offers a comprehensive selection of primary readings and companion overview essays on the sociology of organizations These readings and essays provide incisive and guided coverage of the subjects normally included in a one semester sociology of organizations course The Sociology of Organizations covers the full range of theoretical perspectives and substantive topics through readings that are either classics in the field or widely discussed and debated new classics Section introductions explain key terms and concepts provide illustrations and summarize related debates and research in clear prose The depth of these overview essays makes this book ideal for use as either as a stand alone text or a supplementary reader After reading this book students will have a thorough understanding of central concepts and an appreciation of the primary texts that are the foundation of the field Scholars and students in the fields of sociology management organizational behavior and organizational psychology and those within political science and economics who are interested in how organizations function will find this work a welcome invaluable resource **Research Handbook on the Sociology of Organizations** Godwyn, Mary,2022-06-10 With original contributions from leading experts in the field this cutting edge Research Handbook combines theoretical advancement with the newest empirical research to explore the sociology of organizations While including the traditional study of formal corporate business organizations the Handbook also explores more transitory informal grassroots organizations such as NGOs and artist communities Public Administration and Organization Theory Tulasi Acharya,Kay Traille,2025-03-13 The book surveys crucial theories and practices and academic research in the field of public administration and Organizational theory It outlines ground breaking findings and arising from quality research works from the past to the present especially focused on articles that are both timely and contextual Each chapter opens with a theme explains its relevance within the context and presents a critical annotated bibliography of the articles under the theme and provides a thematic conclusion of the chapter This book will be a valuable resource for teachers researchers and students in the field of public administration Sociological Thinking in Contemporary Organizational Scholarship Stewart Clegg,Michael Grothe-Hammer,Kathia

Serrano Velarde,2024-09-23 The ebook edition of this title is Open Access and freely available to read online Breathing fresh life into a once lively dialogue this is a valuable resource for navigating of the varied sociological scholarship we witness amongst today s organization scholars **Handbook of Community Movements and Local Organizations** Ram A. Cnaan,Carl Milofsky,2007-12-18 Although the way associations and the organization of local social life are intertwined is one of the oldest approaches to community study the way citizens and residents come together informally to act and solve problems has rarely been a primary focus Associations are central to important and developing areas of social theory and social action This handbook takes voluntary associations as the starting point for making sense of communities It offers a new perspective on voluntary organizations and gives an integrated yet diverse theoretical understanding of this important aspect of community life **Effective Talent Management Strategies for Organizational Success** Mupepi, Mambo,2017-01-25 The ultimate success or failure of a business in modern society depends on a variety of factors across all levels of the organization By utilizing dynamic human resource planning techniques businesses can more efficiently reach their goals Effective Talent Management Strategies for Organizational Success is a pivotal reference source that provides scholarly perspectives on the latest practices for leveraging human capital in business environments to maintain and increase competitive advantage Highlighting innovative coverage across relevant topics such as division of labor intellectual assets and value creation systems this book is ideally designed for managers professionals academics practitioners and graduate students seeking emerging research on optimizing talent management in modern businesses **Time, Temporality, and History in Process Organization Studies** Juliane Reinecke,Roy Suddaby,Ann Langley,Haridimos Tsoukas,2020 Time temporality and history are inherently important constructs in process organization studies yet have struggled to move beyond limited conceptualizations in management theory This volume draws together emerging strands of interest to adopt a more nuanced approach in understanding the temporal aspects of organizational processes *International Encyclopedia of Economic Sociology* Jens Beckert,Milan Zafirovski,2006 Dealing with the multiple and complex relations between economy and society this encyclopedia focuses on the impact of social political and cultural factors on economic behaviour It is useful for students and researchers in sociology economics political science and also business organization and management studies **The Oxford Handbook of Sociology, Social Theory, and Organization Studies** Paul S. Adler,Paul Du Gay,Glenn Morgan,Michael I. Reed,2014 Sociology and social theory has always been a major source of new perspectives for organization studies Access to a series of authoritative accounts of theorists and research themes in sociology and social theory which have influenced developments in organization studies is essential for those wishing to deepen and extend their knowledge of the intersection of sociology and organization studies This goal is achieved by drawing on a group of internationally renowned scholars committed in their own work to strengthening these links and asking them to provide critical accounts of particular theorists and research themes which have straddled this divide This volume aims to strengthen

ties between organization studies and contemporary sociological work at a time when there are increasing institutional barriers to such cooperation potentially generating a myopia that constricts new developments Used in conjunction with its companion volume The Oxford Handbook of Sociology and Organization Studies Classical Foundations the reader is provided with a comprehensive account of the productive and critical interaction between sociology and organization studies over many decades Highly international in scope theorists and themes are drawn from both the USA and Europe in equal measure Similarly the authors of the chapters are drawn from both sides of the Atlantic The result is a series of chapters on individuals and key research themes and debates which will provide faculty and post graduate researchers with appreciative authoritative and critical accounts that can be drawn on to design courses or provided guided reading to the field

ACCOUNTING, ORGANIZATIONS AND SOCIETY ,2001 Organization Studies and Posthumanism

François-Xavier de Vaujany,Silvia Gherardi,Polyana Silva,2024-04-05 This book aims at exploring the reception of critical posthumanist conversations in the context of Management and Organization Studies It constitutes an invitation to de center the human subject and thus an invitation to the ongoing deconstruction of humanism The project is not to deny humans but to position them in relation to other nonhumans more than humans the non living world and all the missing masses from organizational inquiry What is under critique is humanism s anthropocentrism essentialism exceptionalism and speciesism in the context of the Anthropocene and the contemporary crisis the world experiences From climate change to the loss of sense at work to the new geopolitical crisis to the unknown effects of the diffusion of AI all these powerful forces have implications for organizations and organizing A re imagination of concepts theories and methods is needed in organization studies to cope with the challenge of a more than human world Business Sustainability Framework Zabihollah Rezaee,2025-02-12

Providing a practical and accessible introduction to a complex yet essential area Business Sustainability Framework enables readers to integrate and report on sustainability from business and accounting perspectives The author explores how organizations of all sizes can adopt an integrated strategic approach to business sustainability encompassing planning performance reporting and assurance Grounded in the latest research the book includes topics such as shareholder and stakeholder governance models business sustainability factors and initiatives sustainability theories standards and best practices the use of AI and financial reporting and auditing initiatives An ideal introduction for advanced undergraduate and graduate students of sustainability governance performance risk reporting and assurance this textbook equips readers with the knowledge and skills necessary to become successful business leaders in sustainability **The Encyclopedia of Police Science** Jack R. Greene,2007 First published in 1996 this work covers all the major sectors of policing in the United States Political events such as the terrorist attacks of September 11 2001 have created new policing needs while affecting public opinion about law enforcement This third edition of the Encyclopedia examines the theoretical and practical aspects of law enforcement discussing past and present practices **Advancing Organizational Theory in a Complex World** Jane

Qiu, Ben Luo, Chris Jackson, Karin Sanders, 2016-10-14 1 In depth reflection on some of the major intellectual traditions in the field of organisational studies 2 Cutting edge theoretical advancement 3 Building connection and synergy between various theories 4 A wide international coverage with authors from four different continents *Street-Level Workers as Institutional Entrepreneurs* Olivia Mettang, 2022-11-14 Introducing the institutional logics perspective to street level analysis this book examines how street level workers deal with the institutional logics that guide their organization whether they follow or challenge them While doing so the book develops a theoretical framework to study street level workers institutional agency within organizations from different institutional backgrounds The book conceptualizes street level workers as institutional entrepreneurs and presents an original process model to capture deinstitutionalization efforts in street level discourse This ordinal model accounts for embedded agency and institutional entrepreneurship as well as for more gradual moves towards deinstitutionalization through the hybridization of institutional logics The author tests the model empirically using interview data and discusses how street level workers diverge from the institutional logic of their organization in almost two thirds of their statements indicating a tendency towards institutional entrepreneurship The book finally combines two literature strands institutionalism and implementation research showing how street level workers may be perceived as institutional entrepreneurs This book will appeal to students scholars and researchers of political science public policy public administration and organizational studies as well as to practitioners and policy makers interested in a better understanding of institutional entrepreneurs street work and the institutional logics perspective
