,1982 Kenya Henry S. Bienen,2015-03-08 Kenya has been the object of much controversy among students of African politics Some view it as one of the greatest successes of the post independence period others see it as an example of all that is wrong with African development Henry Bienen approaches this controversy by asking whether the concept of political participation has been properly understood in the African context His case study of political participation in Kenya discusses administration party politics ethnicity and class He suggests that in a system dominated by elites individuals and groups exert influence primarily through patron client networks and local administrative and party organs Local politics is the most important arena for most people it is argued As long as the regime adopts policies which maximize economic growth and take

account of peasant middle and small holders and as long as individual representatives can be replaced even though no change of regime occurs limited political participation leads to political stability Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Undercurrents of Ethnic Conflicts in Kenya John O. Oucho, 2002-01-01 This book provides graphic and scholarly perspectives of ethnic conflict in Kenya where ethnocentrism has grown with time and where both ethnic and administrative units are coterminous As the country's Rift Valley attracted in migration since independence in 1963 it became the seedbed of a simmering ethnic strife that exploded in 1991-93 causing a flood of internally displaced people IDP and grinding agricultural activity and economic enterprise to a halt

Kenya six months on: A new beginning or business as usual? Ishbel Matheson, 2008-08-28 At the start of 2008 Kenya was in the grip of its worst crisis since independence The violence following the December 2007 election was unprecedented It continued for weeks and posed a real threat to the unity of the nation The initial spark was the contested presidential result where the incumbent Mwai Kibaki candidate of the Party of National Unity PNU claimed victory and was swiftly sworn in amid claims of widespread poll rigging But the unrest quickly took on an ethnic dimension The Kikuyus the group which has dominated Kenya economically since independence in 1963 bore the brunt of the violence They were perceived to be the backers of Mwai Kibaki a Kikuyu and his Kikuyu dominated PNU alliance The worst unrest was around the Northern Rift Valley town of Eldoret where Kalenjins mobilised against Kikuyu driving them away and burning their property But there was also serious violence in the Southern Rift with Kalenjin attacks on Kisii communities over land ownership issues and in Western Kenya particularly in the town of Kisumu where Luo supporters of the opposition Orange Democratic Movement ODM were shot by the Kenyan police In the Rift Valley towns of Naivasha Molo and Nakuru the Mungiki a Kikuyu outlawed militia attacked ODM supporters Families from the minority Ogiek hunter gatherer community close to Nakuru had their houses burnt down and their property destroyed by Kikuyu villagers By the time the powersharing deal was struck on 28 February 2008 bringing together the ODM and the PNU approximately 1 500 Kenyans had been killed over 400 000 displaced and an unknown number of women had been raped Six months on the Grand Coalition has survived despite initial scepticism over its prospects and

peace has returned to the Kenyan countryside But it is a fragile peace and dependent on strong leadership with a will to reform When the Grand Coalition was formed its leaders vowed to tackle the deeply rooted problems that led to the violence in the first place They promised a new inclusive approach to governing Kenya s multi ethnic society instead of the winner takes all mentality of the past But a key test of the pledge is how the Coalition reaches out to the country s most marginalized and impoverished communities The experience of Kenya s smaller minority and indigenous peoples see page 3 shows that thus far this promise has yet to be fulfilled Members of the Ogiek hunter gatherer group caught up in the violence have yet to receive any government assistance while internally displaced peoples IDPs from larger communities have received shelter seeds and fertilizers as well as the promise of compensation to rebuild houses Moreover despite the important reforms set in motion by the Kofi Annan brokered deal there has been no commitment to involve minority and indigenous peoples in these processes and it remains unclear how these communities will realise their right to participate in them Secondly Kenya s new prime minister has pledged to tackle what he termed the scourge of ethnicity in Kenya His meaning however remains unclear and potentially poses difficulties for minorities If it entails a more hostile approach to minorities rights to express their separate culture and identity then it will undercut the very point of the inclusive process that the reforms are supposed to achieve However if the prime minister means to tackle the politicization of ethnicity which has disfigured Kenya s governance since independence then the commitment is a welcome one But here again there are doubts about the political will to follow through on this promise Reconciliation efforts in the countryside have been largely NGO and church led The government s main priority seems to have been to disperse the large IDP camps rather than heal ethnic divisions Moreover the ODM s calls for an amnesty for their supporters arrested during the election violence puts a question mark over the party s commitment to tackle the culture of impunity which surrounds ethnic violence in Kenya The first part of this paper examines in greater detail how the government has dealt with the issue of ethnicity and fall out from the violence six months ago The second part of the paper looks at the prospects for reform through the lens of minority and indigenous rights

Danver, 2015-03-10 This work examines the world s indigenous peoples their cultures the countries in which they reside and the issues that impact these groups *Africa and the West* Godfrey Mwakikagile, 2000 Besides her natural beauty the scenery and the climate and her abundant wildlife and natural resources Africa is probably best known as the homeland of hundreds of millions of people who live in abject poverty Millions are wracked by disease and blinded by ignorance And just as many go hungry every day But there is something else which also distinguishes Africa lack of unity among her people That is one of the main reasons why they were conquered by foreigners and why Africa is still weak and poor today There is no other continent which is endowed with so much in terms of natural resources But there is also no other continent where it has been so easy for foreigners to take what does not belong to them This book began as a self examination of the African personality in an attempt to understand Africa s place in the world
