Aging As A Social Process An Introduction To Individual And Population Aging:

Aging as a Social Process Barry D. McPherson, 1998 **The Obsolete Self** Joseph Esposito, 2021-01-08 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1987 **Current Catalog** National Library of Medicine (U.S.), 1993 First multi year cumulation covers six years 1965-70

The Social Economics of Health Care John Bryan Davis, 2001 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company *The Boomerang Age* Barbara Mitchell, 2011-12-31 The Boomerang Age was named an Outstanding Academic Title of 2007 by Choice Magazine Domestic changes are taking place in the lives of young adults in Western industrialized societies Today's young people often experience less permanency and more movement in a variety of family related roles statuses and living arrangements Among the most prominent changes is the phenomenon of boomerang kids young adults returning to the parental home after their initial entrance into the adult world The Boomerang Age explores the implications of this development in a changing sociocultural economic and demographic landscape Mitchell begins by addressing definitional conceptual and measurement issues relevant to the boomerang age She then places the issues in historical perspective by considering trends in family organization the nuclear family marriage and divorce rates and fertility over the past hundred years with emphasis on the 1950s family as a cultural benchmark The book then turns to the contemporary trajectory of home leaving and returning analyzing the launch and return phases with regard to economic factors regional differences and racial and ethnic backgrounds Mitchell then explores the more personal dimensions of how a return to the family is complicated by partnership marriage divorce cohabitation homosexuality and parenthood among young couples Moving outside the home she looks at how public issues such as globalization the decline of the welfare state and various forms of social inequality affect the circumstances of young adulthood Here Mitchell offers specific social policy recommendations pertaining to education housing and dependency issues childcare and gender and racial equality The book concludes by critically evaluating the advantages and drawbacks of two possible future scenarios increased individualization in the pursuit of social goals or a more or less permanent return to the traditional extended family Introduction to Sociology James J. Teevan, W. E. Hewitt, 2000-08 Appropriate for one and two term introduction to Sociology courses at universities and colleges This multi authored text written by Canadian contributors who are experts in their respective areas provides a comprehensive introduction to the field **Anthropology of Aging** Marjorie M. Schweitzer, 1991-06-19 During the 1970s Comparative Cultural Gerontology or the Anthropology of Aging with its focus on aging from a cross cultural perspective attained the status of a new speciality in the field of anthropology It was only in the late 1960s to the mid 70s that elderly people and the process of aging became recognized as a bona fide research topic for anthropology Majorie M

Schweitzer's *Anthropology of Aging* looks at aging from this cross cultural perspective and updates the Association for Anthropology and Gerontology's previously published Topical Bibliography and the Supplement to the Topical Bibliography on the Anthropology of Aging. Schweitzer focuses on citations that represent anthropological perspectives and or cross cultural data with data from other disciplines included when warranted. Besides a greatly expanded number of bibliographical references, Schweitzer's work includes annotations for particularly important citations including those that address special issues such as method and theory as they relate to aging and those that provide the clearest treatment of a particular topic. The topical outline of the 1982 volume has been retained with only minor additions and changes making the Bibliography both easy to use and a rich resource for researchers. Over 40 international scholars in the field of aging have updated the various sections of the original bibliography. Organized according to two kinds of topics, subject topics such as Modernization and regional cultural group topics such as Great Britain, American Indian, the reference contains 14 chapters that investigate research on the subject from Africa to the Pacific Rim, USSR, USA, Europe, Israel, and more. Beginning with a chapter that zeroes in on general theoretical and comparative works, the volume proceeds with chapters that examine demography, biology, and longevity, medical aspects of aging, non industrialized societies, national cultures, modernization, and ethnic rural segments of the United States. The last six chapters examine social structure, community organization, and age homogeneous residences, urban aged, social networks, support systems, women, death and dying, and methods. The final chapter contains a list of additional bibliographies. A must for most research libraries, this comprehensive bibliography will be widely used by teachers, students, researchers, social workers, service providers, and administrators from many different disciplines.

Urban Public Library Service for the Aging in Canada Lois M. Bewley, 1984 **Cross-cultural Perspectives on Well-Being and Sustainability in Organizations** Annamaria Di Fabio, 2022-01-22. This book explores a new area of psychology of sustainability and sustainable development with specific focus on organizations and introduces a range of advanced perspectives for healthy business harmonization and decent work. Split into two parts, the first half presents cross cultural contributions that study in depth the benefits and drawbacks of sustainability while the second half discusses theoretical approaches and empirical research that offer new prospects for innovation in prevention science. Gathering research from leading scholars and researchers from around the globe, this book offers an essential reference guide that will benefit researchers, professionals, students, and policy makers interested in promoting better business harmony and sustainability. The World of the Aging Celia Hales-Mabry, 1993. This work explains how older adults get all their everyday information; it also debunks stereotypes of the older individual. The information programmes of churches, libraries, schools, private agencies, and the government are examined. The concerns of minorities are also taken into account. **Canadian Ethnic Studies**, 1983. Ageing: Key debates Susan A. McDaniel, 2008. **The Unmarried in Later Life** Pat Keith, 1989-04-17. This pioneering study examines the resources and well being of older widowed, divorced, or separated and

never married men and women over time The first comprehensive longitudinal study of its kind ever published The Unmarried in Later Life considers the effects of changes in health finances work social networks vulnerability and psychological well being and compares adaptations to these transitions for unmarried men and women Because it focuses attention on one of the fastest growing yet often neglected segments of the population this volume is an ideal supplemental text for courses in sociology gerontology family studies and the psychology of aging Several features make The Unmarried in Later Life a unique contribution to the social sciences literature The author considers unmarried categories widowed never married etc _ separately permitting more extended comparisons between groups The study is based upon a nationally representative sample and contains data on more unmarried persons than are usually available for study The use of longitudinal data facilitates the observation of the unmarried over a longer period of time than is often possible The author offers a detailed evaluation of common assumptions about living alone challenging widely held negative stereotypes of the unmarried What emerges is a clear view of the changes in social relationships and their patterns by marital status and gender over the course of a decade Researchers and practitioners will find here much new information about the social status of the aged unmarried Global Perspectives on Health Assessments for an Aging Population Ribeiro, Luis

Vieira,Ribeiro, Anabela Magalhães,2023-04-03 Today s society recognizes that the last decades of an individual s life are usually those in which health tends to deteriorate and chronic pathologies increase Action at this level is verified through the increased concern of government officials with the elderly population motivated by the socio economic impact of costs associated with the provision of healthcare in this group Global Perspectives on Health Assessments for an Aging Population provides relevant theoretical frameworks and the latest empirical research findings in the area of health assessments for an aging population Covering topics such as ambulatory wellbeing gerontology and neuropsychological assessment this premier reference source is a valuable resource for gerontological healthcare professionals gerontological social workers
