Ah Mediterranean Twentieth Century Classicism In America:

Ah Mediterranean! Charles W. Moore, Wayne Attoe, 1985 *A Companion to the Classical Tradition* Craig W. Kallendorf, 2008-04-15 A Companion to the Classical Tradition accommodates the pressing need for an up to date introduction and overview of the growing field of reception studies A comprehensive introduction and overview of the classical tradition the interpretation of classical texts in later centuries Comprises 26 newly commissioned essays from an international team of experts Divided into three sections a chronological survey a geographical survey and a section illustrating the connections between the classical tradition and contemporary theory **Classical and Modern Interactions** Karl Galinsky, 2010-07-22 Postmodernism multiculturalism the alleged decline of the United States deconstruction leadership and values these topics have been at the forefront of contemporary intellectual and cultural debate and are likely to remain so for the near future Participants in the debate can usefully enlarge the perspective to a comparison between the Greco Roman world and contemporary society In this thought provoking work a noted classics scholar tests the ancient modern comparison showing what it can add to the contemporary debates and what its limitations are Writing for intellectually adventurous readers Galinsky explores Greece and Rome as multicultural societies debates the merits of classicism in postmodern architecture discusses the reign of Augustus in terms of modern leadership theories and investigates the modern obsession with finding parallels between the supposed decline and fall of Rome and the decay of U S society Within these discussions Galinsky shows the continuing vitality of the classical tradition in the contemporary world The Greek and Roman civilizations have provided us not only with models for conscious adaptation but also points for radical departures This ability to change and innovate from classical models is crucial Galinsky maintains It creates a reciprocal process whereby contemporary issues are projected into the past while aspects of the ancient world are redefined in terms of current approaches These essays result in a balanced assessment and stimulating restatement of some major issues in both contemporary U S society and the Greco Roman world The book which speaks to a wide interdisciplinary audience is based on a series of lectures that Galinsky gave as a national visiting scholar for Phi Beta Kappa It concludes with a discussion of the role of classical studies in the United States today **You Have to Pay for the Public Life** Charles W. Moore, 2004-02-27 Previously uncollected essays of an architect whose love of people buildings and nature was reflected in the places he built Architect Charles Moore 1925 1993 was not only celebrated for his designs he was also an admired writer and teacher Though he wrote clearly and passionately about places he was perhaps unique in avoiding the tone and stance of the personal manifesto Through his buildings books and travels Moore consistently sought insights into the questions that always underlie architecture and design What does it mean to make a place and how do we inhabit those places How do we continue to build upon but respect the landscape How do we reconcile democracy and private land ownership What is original What is taste What is the relationship between past and present How do we involve inhabitants in making places

Finally what is public life As the world becomes smaller and the uniqueness of places and landscapes gives way to sameness Moore s celebration of the vernacular and of the surprising are more relevant than ever The pieces in this book span the years 1952 to 1993 and engage a myriad of topics and movements such as contextualism community participation collaboration environmentally sensitive design and historic preservation The essays in this book reflect as well Moore s scholarship humanism urbanity and great wit **Pride in Modesty** Michelangelo Sabatino,2011-05-21 Following Italy s unification in 1861 architects artists politicians and literati engaged in volatile debates over the pursuit of national and regional identity Growing industrialization and urbanization across the country contrasted with the rediscovery of traditionally built forms and objects created by the agrarian peasantry Pride in Modesty argues that these ordinary often anonymous everyday things inspired and transformed Italian art and architecture from the 1920s through the 1970s Through in depth examinations of texts drawings and buildings Michelangelo Sabatino finds that the folk traditions of the pre industrial countryside have provided formal practical and poetic inspiration directly affecting both design and construction practices over a period of sixty years and a number of different political regimes This surprising continuity allows Sabatino to reject the division of Italian history into sharply delimited periods such as Fascist Interwar and Democratic Postwar and to instead emphasize the long continuous process that transformed pastoral and urban ideals into a new modernist Italy

Making Houston Modern Barrie Scardino Bradley,Stephen Fox,Michelangelo Sabatino,2023-11-15 Complex controversial and prolific Howard Barnstone was a central figure in the world of twentieth century modern architecture Recognized as Houston s foremost modern architect in the 1950s Barnstone came to prominence for his designs with partner Preston M Bolton which transposed the rigorous and austere architectural practices of Ludwig Mies van der Rohe to the hot steamy coastal plain of Texas Barnstone was a man of contradictions charming and witty but also self centered caustic and abusive who shaped new settings that were imbued at once with spatial calm and emotional intensity Making Houston Modern explores the provocative architect s life and work not only through the lens of his architectural practice but also by delving into his personal life class identity and connections to the artists critics collectors and museum directors who forged Houston s distinctive culture in the postwar era Edited by three renowned voices in the architecture world this volume situates Barnstone within the contexts of American architecture modernism and Jewish culture to unravel the legacy of a charismatic personality whose imaginative work as an architect author teacher and civic commentator helped redefine architecture in Texas Avery Index to Architectural Periodicals. 2d Ed., Rev. and Enl Avery Library,1986 New Perspectives in Italian Cultural Studies Graziella Parati,2012-11-10 Following the more theoretical first installment of New Perspectives in Italian Cultural Studies devoted to Definitions Theory and Accented Practices the second volume of New Perspectives deals with practicing cultural studies by offering articles that are valuable for both scholars of Italian studies and students interested in a cultural studies approach Divided in four sections the articles included offer complex approaches

to literature film the visual arts and a particular moment in Italian history with which Italians are still coming to terms
fascism The essays cover about two hundred years of Italian cultures dealing with the construction of national myths the role
of soccer in contemporary debates the contemporary success of mystery novels and issues of race and crime in fascist Italy
Contributors look at film through the lens of fashion history and the particular Italian use of dubbing that continues even
today Place and memory are the topics of a number of essays that also allow for an interpretation of Italian culture
inAmericans imagination This volume contains a multifaceted representation of Italy and invites additional discussion on the
complexity of representing cultures **The Publishers' Trade List Annual** ,1986 **Architektura - historie - umění -**
