Translation and Violent Conflict Moira Inghilleri, Sue-Ann Harding, 2010-01-30 First Published in 2010 Translators and interpreters are frequently found at the centre of attempts to wage war or negotiate peace between opposing factions Translation and interpreting also serve a vital function in communicating a conflict locally and globally as interested parties attempt to legitimize their actions appeal for assistance and enlist support for their cause and the condemnation of their stated enemy The unavoidable independent exercises of judgement that interpreters and translators make through their participation in or re narration of a conflict and the decisions that go with them provide clear and strong evidence for the lead role in the construction of meanings and identities that interpreters and translators assume in situations of conflict irrespective of their historical or geopolitical setting This special issue of The Translator explores the role of translators and interpreters in a number of conflicts from the 20th century to the present Drawing on fictional and non fictional texts legal and peacekeeping settings and reports from war zones contributors to this volume explore the overlapping themes of mediation agency and ethics in relation to translators and interpreters as they negotiate the political social cultural linguistic and ethical factors that converge often dangerously in situations of armed conflict **The Arabian Mission's Story** Lewis

R. Scudder, 1998 Volume 30 recounts the eighty year long history of the RCA's mission work in the Middle East written by a missionary who has spent decades in the Arabian Gulf Including instructive discussion of missiological themes as well as the narrative of the church's daily work in Arabia this volume is not only of denominational interest but will also provide important insights for mission students and those actively involved in a mission field **Interpreting Justice** Moira

Inghilleri, 2013-03-01 In this timely study Inghilleri examines the interface between ethics language and politics during acts of interpreting with reference to two particular sites of transnational conflict the political and judicial context of asylum adjudication and the geo political context of war The book characterizes the social and moral spaces in which the translation of the spoken word occurs in ways that reflect the realities of the trans nationally constituted locally and globally informed environments in which interpreters work alongside others One of the core arguments is that the rather restricted notion of neutrality that remains central to translator and interpreter practices does not adequately reflect the complex and paradoxical nature of these socially and politically inscribed encounters and others like them This study offers an alternative theoretical perspective on language and ethics to those which have shaped and informed translation and interpreting theory and practice in recent years **Rethinking Humanitarian Intervention** Alex J. Bellamy, Stephen McLoughlin, 2018-03-09

Two leading experts in the field re-examine the traditional understanding of humanitarian intervention in this major new text The recent high profile interventions in Iraq Libya and Syria show the various international responses to impending or

ongoing humanitarian crises tracking the development from ad hoc military interventions to a more formalised international human rights regime This evolution has fundamentally changed the way that states and international society think about and respond to atrocities This textbook charts and explains the transformation examines the challenges that confront it and asks whether this new politics can withstand the growing crises in international politics The human protection system is not perfect but attempts to reduce both the incidence and lethality of atrocity crimes The authors argue that armed intervention alone is rarely sufficient to halt humanitarian atrocities but must be understood within the wider context of peacemaking including non violent action The requirement for states to intervene is codified in international law and this raises important practical political and moral questions for consistent humanitarian action Based on the authors two decades of research this text is the ideal companion for students of International Relations taking modules on Humanitarian Intervention and the Responsibility to Protect at undergraduate and postgraduate levels

The Economist, 2005 *The Middle East: How Conflict Resolution Can Extinguish Terrorism: The Power of Cultural & Sub-Cultural Understanding* Mary Kendall Hope, 2014-06-19

In the course of the defense of a nation we the people of that nation must have the courage to embrace innovative change To keep our democracy we cannot accept ignorance and the rut of tradition when traditional methods cease to work We must have faith in new methods and go forward with the better knowledge that we have and embrace positive change We have made many irreversible mistakes by racing as fast and hard as we can to the most immediate answer A country destroyed by war and in the throes of sectarian violence deserves more than the most immediate answer The decisions made by the United States to initiate war in Middle East have deeply impacted our world Anyone who has traveled abroad will confirm that the United States presence as a stimulant for comparison exists in nearly every culture in this world Unfortunately since our invasion of Middle East the comparisons made to the U S have become negative ones We need to work to restore our positive standing on the world stage

From Slave to Sultan Linda Northrup, 1998

Spanning the greater part of the thirteenth century the career of the Mamluk sultan of Egypt and Syria al Mansur Qalawun is of great interest for the light it sheds on the major themes of early Mamluk history the emergence of a new political and administrative structure characterized by increased militarization and mamlukization the role of the caliphate and the nature of sultani authority the problem of succession Mamluk factionalism Egyptian Syrian relations relations with Mongols and Crusaders and the importance not to mention the strategic and complex nature of international trade in the Mamluk realm Not only does this work fill a gap in knowledge of the early Mamluk period complementing the studies we have of Baybars s and al Nasir Muhammad s reigns but it goes further than most in analyzing the institutions of the period and uses hitherto neglected materials to illuminate theoretical and practical questions of Mamluk rule With indices *From Slave to Sultan* is well written The analysis is dense and packed with scholarship it is one of those books of which specialists will devour the notes with even greater relish than they do the text Graduate students in particular will be grateful for her first chapter in which

she introduces describes and evaluates the various sources MESA Bulletin This book will unquestionably stand as the authoritative work on Qalawun for some time to come School of Oriental African Studies Northrup is to be commended for undertaking this important and much needed project with her persistent efforts meticulous and critical reading of the sources sound methodology and diligent presentation The result is a definitive work on the political legacy of one of the most eminent early Mamluk sultans Journal of Near Eastern Studies Franz Steiner 1998

Contextualizing Sectarianism in the Middle East and South Asia Satgin Hamrah, 2023-07-25 States across the Muslim world are faced with challenges associated with a perpetual cycle of conflict and violence organized along sectarian lines To understand modern day sectarianism it is essential to move beyond explanations that focus predominantly on ancient Sunni Shia animosities or a singular lens It is important to engage in interdisciplinary and multidirectional examinations to better understand how sectarianism is strategically utilized by political entrepreneurs Moreover while religious identities and how individuals define themselves and their communities are important it is also integral to analyze how identity has been utilized in historical and contemporary political contexts on state and non state levels This volume seeks to fill gaps in understanding the complexities associated with sectarianism through a transnational interdisciplinary analytical framework to enhance understanding of the socio political religious political cultural and security landscapes of the Middle East and South Asia It also challenges narratives regarding sectarian divisions between Sunnis and Shias and deconstructs popular misconceptions about sectarianism its spatial and temporal impact as well as its influence on identities conflict and competition The volume will be of interest to scholars and researchers of the Middle East and South Asia and those interested in history politics international relations international security religion and sociology
